

# Pictory AI for Teachers

Creating Teaching Plans with Exemplars

*Transform your lesson planning with AI-powered tools that help you create engaging, comprehensive teaching plans complete with visual exemplars and multimedia content.*

Ramesh P Badoni  
IT Faculty SCERT Uttarakhand

# Why Teachers Need Pictory AI

## Save Time

*Reduce lesson planning time by up to 70% with automated content generation and visual matching.*

## Boost Engagement

*Create visually rich content that captures student attention and improves information retention.*

## Enhance Accessibility

*Generate captions, voiceovers, and visual aids that support diverse learning needs and styles.*

## Professional Quality

*Produce polished teaching materials without requiring advanced technical or design skills.*

# Creating Teaching Plans: Step-by-Step Process

01

## Input Your Content

*Upload your lesson plan, curriculum outline, or teaching script into Pictory AI. The platform accepts various formats including text documents, PDFs, and even blog posts.*

02

## AI Analysis

*Pictory's AI analyzes your content, identifying key concepts, learning objectives, and important teaching points that need visual reinforcement.*

03

## Visual Matching

*The system automatically selects relevant images, video clips, and graphics from its extensive library to illustrate your teaching points.*

04

## Customize & Refine

*Review and adjust the generated content, adding your personal touch, school branding, or specific examples relevant to your students.*

05

## Export & Share

*Download your completed teaching plan with embedded visuals, ready to present in class or share with students online.*

# Key Features for Educators

## Script to Video

*Transform written lesson plans into engaging video presentations automatically.*

## Article Summarization

*Convert lengthy educational articles into concise, visual summaries perfect for student comprehension.*

## Auto-Captioning

*Generate accurate captions for all content, supporting students with hearing impairments or language learners.*

## AI Voiceovers

*Add professional narration in multiple languages and accents to accommodate diverse classrooms.*

# Exemplar 1: Science Lesson Plan

Topic: The Water Cycle

*Learning Objective: Students will understand the stages of the water cycle and their interconnections.*

*Pictory AI Application:*

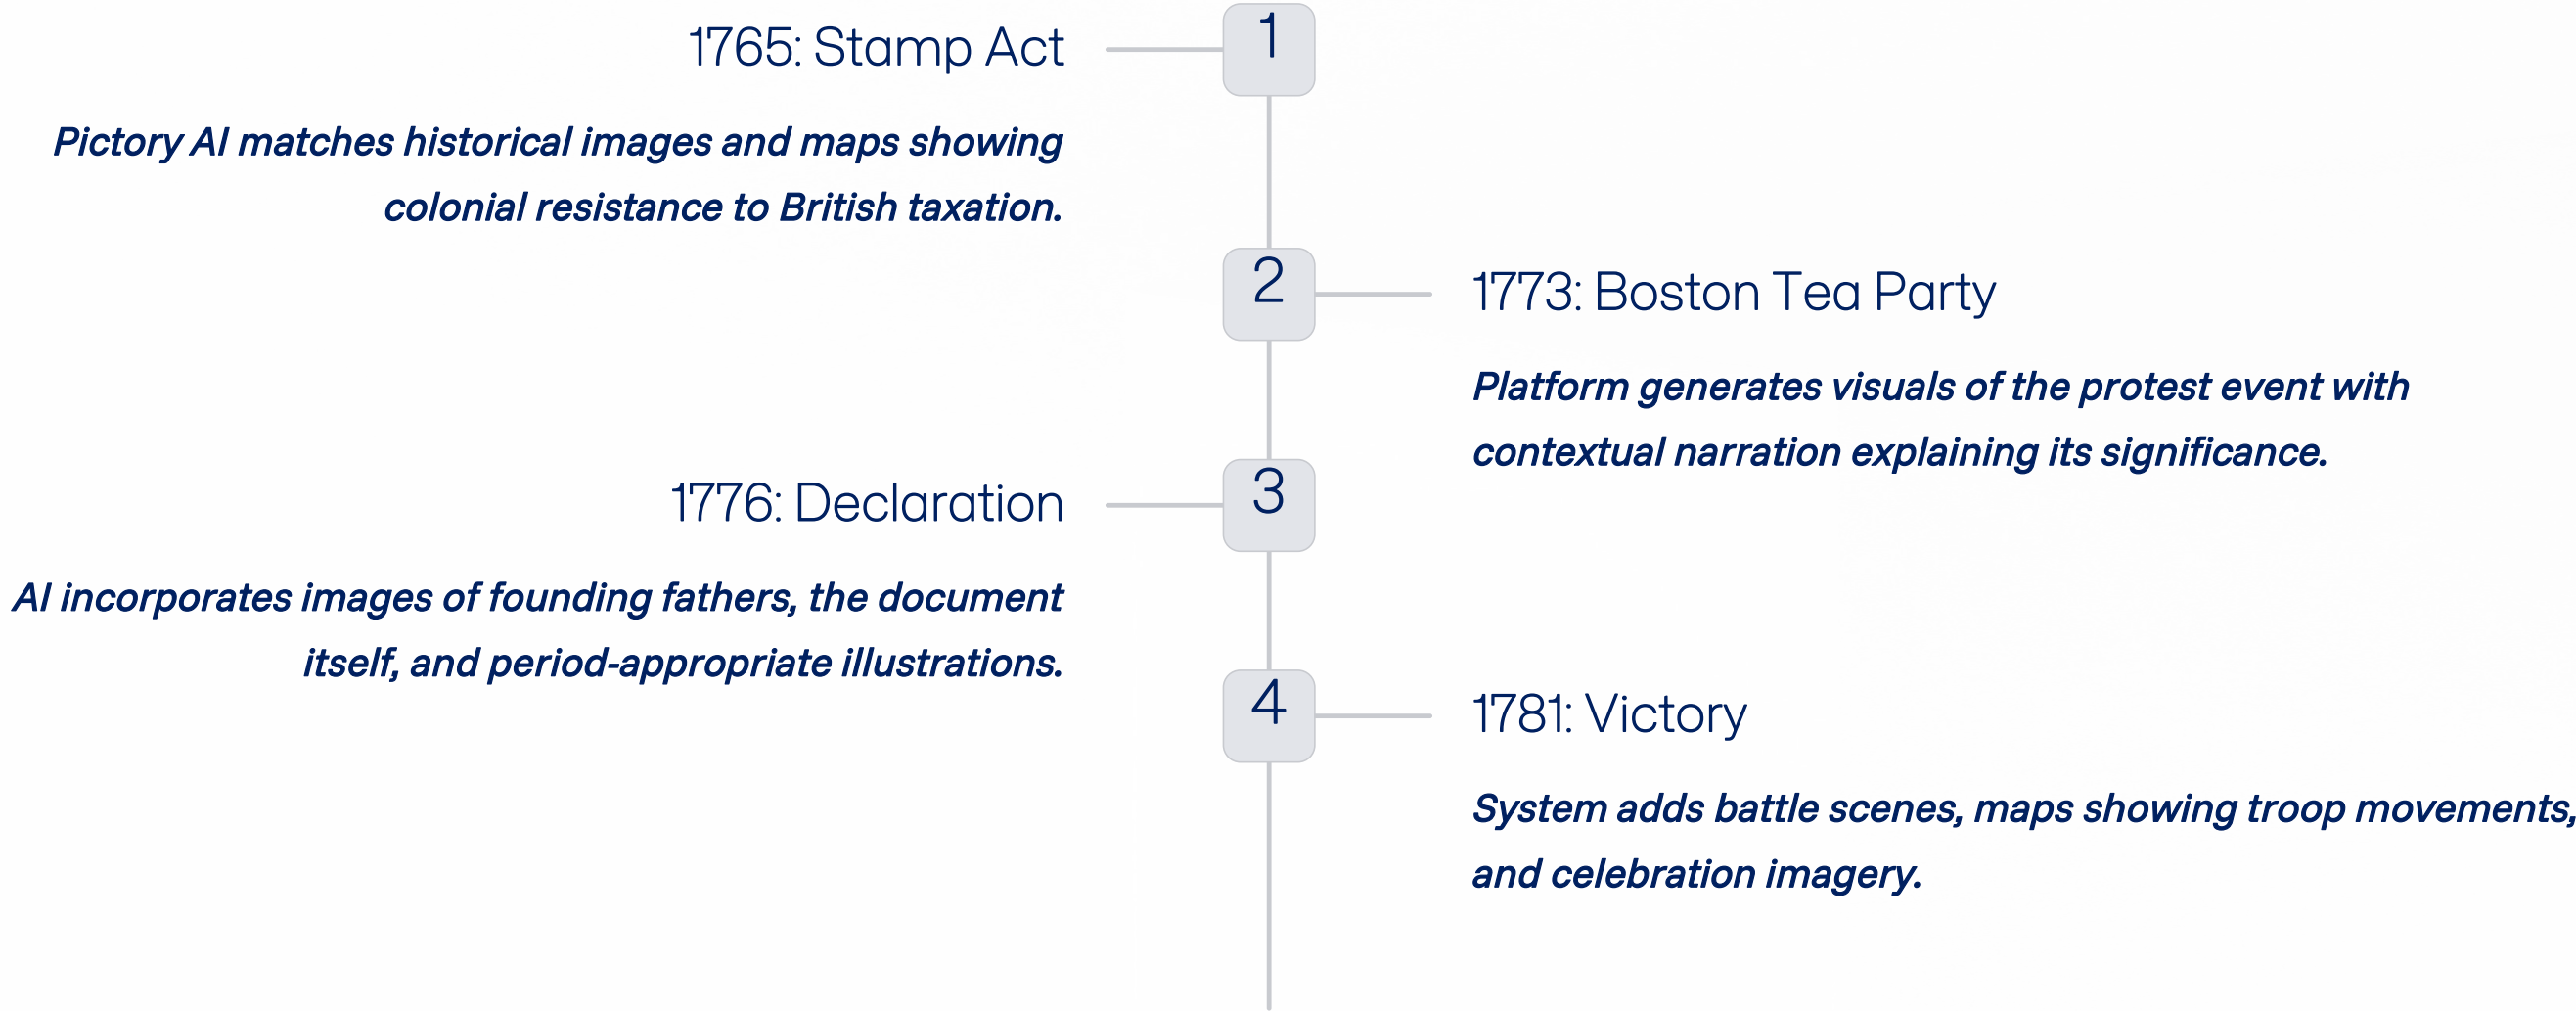

- *Input: Text description of evaporation, condensation, precipitation, and collection*
- *AI generates animated visuals showing water movement through each stage*
- *Adds real-world video clips of rain, clouds, and rivers*
- *Creates captions highlighting key vocabulary terms*

*Result: A 5-minute engaging video that students can watch in class or at home, with visual reinforcement of each concept.*

# Exemplar 2: History Lesson Plan

Topic: The American Revolution

*This timeline-based teaching plan helps students visualize the sequence of events and understand cause-and-effect relationships throughout the revolutionary period.*

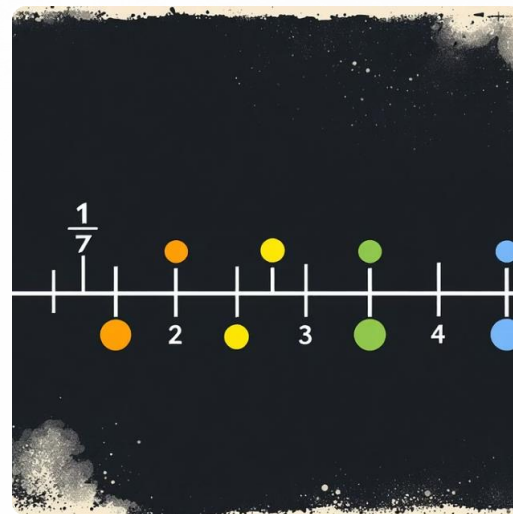

# Exemplar 3: Mathematics Lesson Plan

Topic: Understanding Fractions

Visual Representations

*Pictory AI generates multiple visual examples using pizzas, pies, and shapes to illustrate fraction concepts.*

Number Line Integration

*Platform creates animated number lines showing fraction placement and equivalencies.*

Real-World Applications

*AI suggests practical examples like sharing food, measuring ingredients, and dividing resources.*

# Best Practices for Implementation

1

Start with Clear Objectives

*Write specific learning goals before inputting content into Pictory AI. Clear objectives help the AI generate more relevant visuals and structure.*

2

Review and Customize

*Always review AI-generated content for accuracy and appropriateness. Add your personal teaching style and adjust visuals to match your students' context.*

3

Incorporate Student Feedback

*Ask students which visual elements help them learn best, then refine future teaching plans based on their input.*

4

Build a Resource Library

*Save and organize your Pictory-created materials for reuse and sharing with colleagues, building a comprehensive teaching resource collection.*

# Transform Your Teaching Today

70%

Time Saved

*Reduce lesson planning  
time with automated  
content creation*

85%

Student  
Engagement

*Increase classroom  
participation with visual  
learning materials*

3x

Content Output

*Create three times more  
teaching resources in the  
same timeframe*

*Pictory AI empowers educators to create comprehensive, visually engaging teaching plans with exemplars that enhance student learning. Start transforming your lesson planning process today and discover how AI can amplify your teaching impact.*
