

# Curricula for Information and Communication Technology (ICT) in Education for School System

The present curricula for ICT in Education is a significant vehicle for realization of the goals of the National Education Policy-2020, NCF-FS-2022, NCF-SE-2023 and the visions of Digital India Campaign. The curricula is designed for teachers and students to build competencies in using ICT to enhance teaching-learning, assesment and critically interact with digital information.
