Basic multiple choice question with optional advanced features including: Multi Select, Randomized answer order, Batch question creation, and an answer eliminator.

Read the two passages shown and answer the question that follows.

The 19th Amendment | The 15th amendment

The Fifteenth Amendment (Amendment XV) to the United States Constitution prohibits the federal and state governments from denying a citizen the right to vote based on that citizen's "race, color, or previous condition of servitude". It was ratified on February 3, 1870, as the third and last of the Reconstruction Amendments.

In the final years of the American Civil War and the Reconstruction Era that followed, Congress repeatedly debated the rights of the millions of black former slaves. By 1869, amendments had been passed to abolish slavery and provide citizenship and equal protection under the laws, but the election of Ulysses S. Grant to the presidency in 1868 convinced a majority of Republicans that protecting the franchise of black voters was important for the party's future. After rejecting more sweeping versions of a suffrage amendment, Congress proposed a compromise amendment banning franchise restrictions on the basis of race, color, or previous servitude on February 26, 1869. The amendment

In July 1848 Elizabeth Cady Stanton and Lucretia Mott organized the first women's rights convention in Seneca Falls, NY, and launched the woman suffrage movement. Many of the attendees to the convention were also abolitionists whose goals included universal suffrage. In 1870 this goal was partially realized when the 15th amendment to the Constitution, granting black men the right to vote, was ratified.

How was the 15th amendment different from the 19th amendment that Susan B. Anthony petitioned to Congress for? Select two answers:

☐ A. The 19th amendment guaranteed the right to domestic tranquility, and this was especially useful to women.

☐ B. In the 15th amendment, the definition of 'We, the people' was expanded to include men of all races.
