About myQuiz.org

MyQuiz.org has been developed by WaveAccess, USA
(this is an international custom software company)

MyQuiz is a platform where you can create any set of questions (including image and video questions.)

MyQuiz is easy and intuitive to use (no downloading and installation needed)

It works on smartphones, tablets, laptops or PCs.

How it works

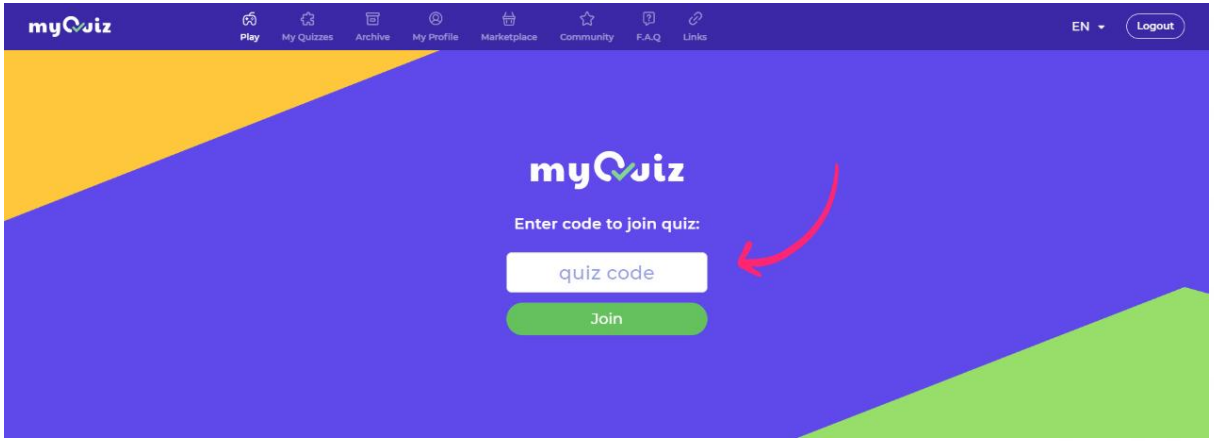
The quiz host composes the questions, adds images or videos, and sets the parameters, such as the number of prize winners or the time to submit the answer, all at myquiz.org

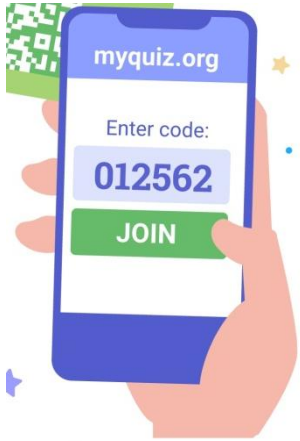
Inviting Students/Players

After the quiz is all set, the host receives a unique digital code for their quiz. They can share this code with their students/ audience through any preferred means. A direct link to the quiz can be also used instead of the code.

Process to Join

To join the quiz, participants enter the code at the myQuiz website or redirected to the link on their devices.





The host launches the quiz. The students see the questions and the answer options on their mobile/devices and click on the chosen answer.

LeaderBoard

Students/Players get points for correct answers. The leader board is displayed after each question to track top players progress.

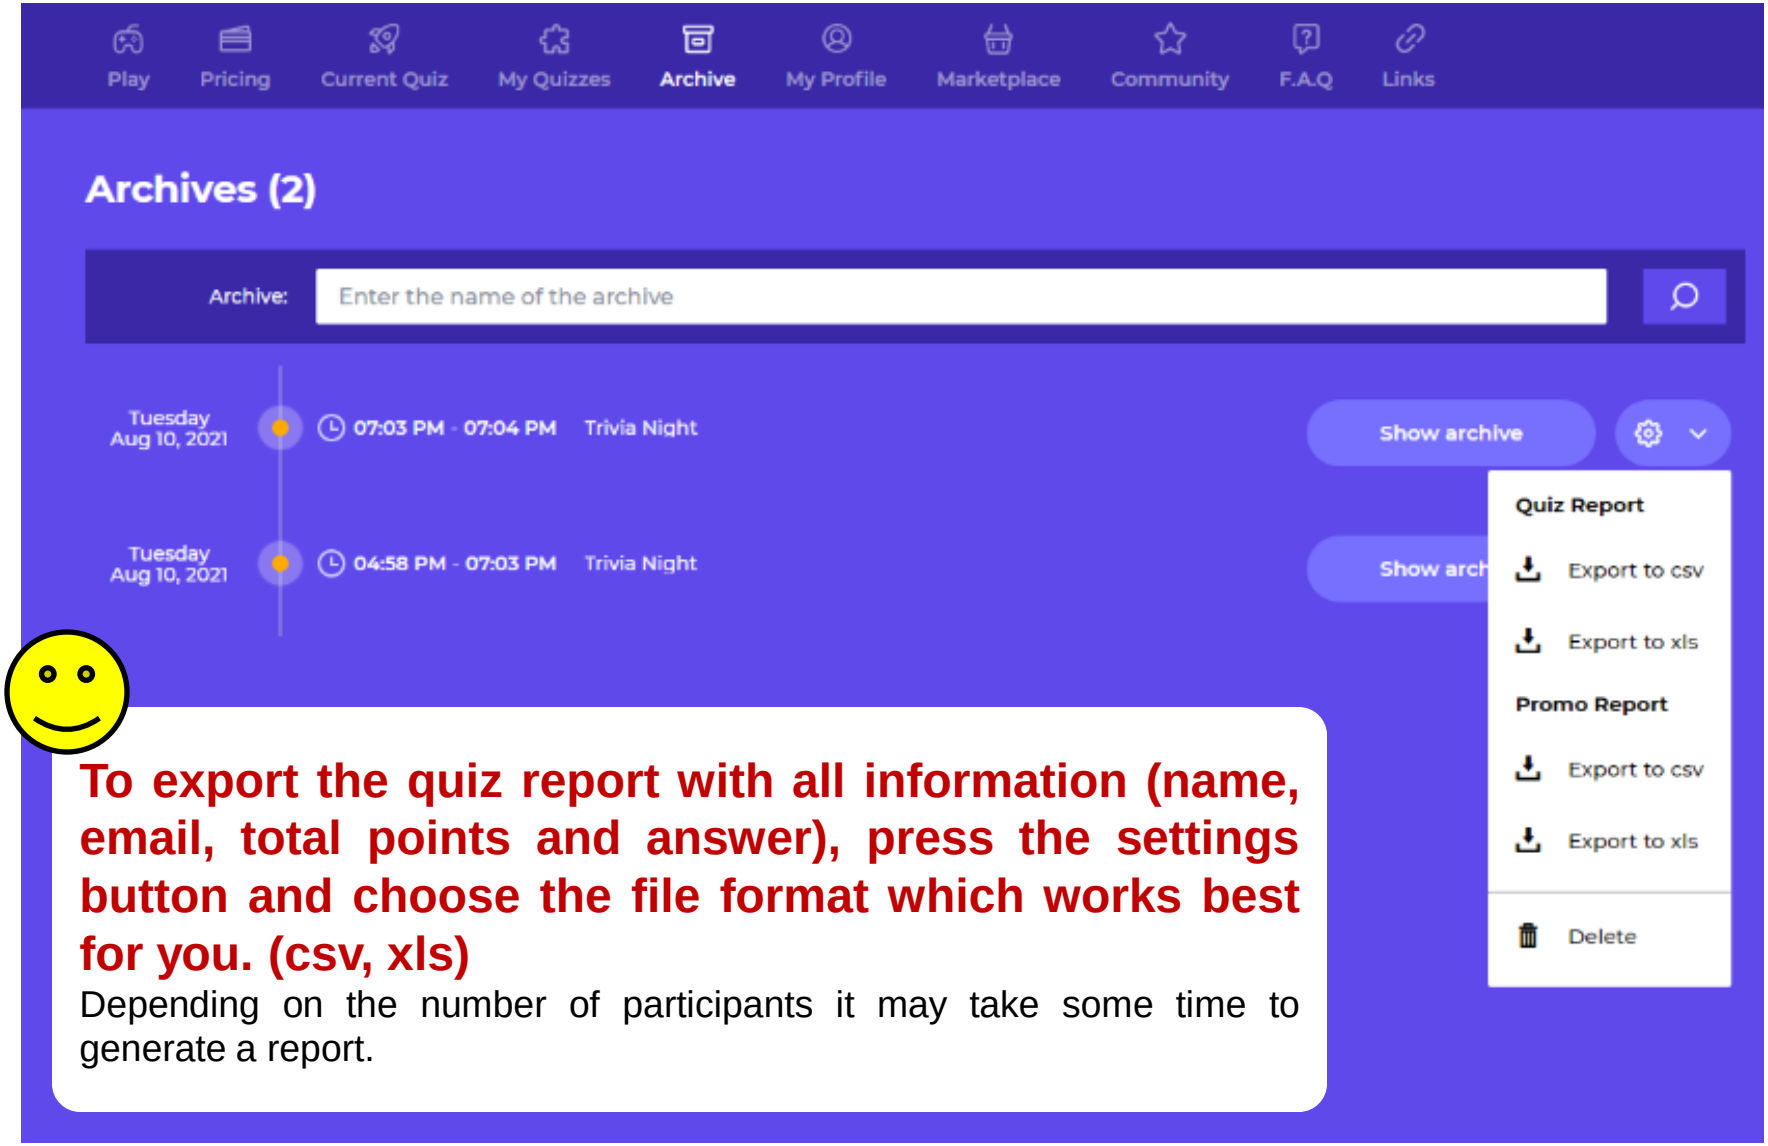
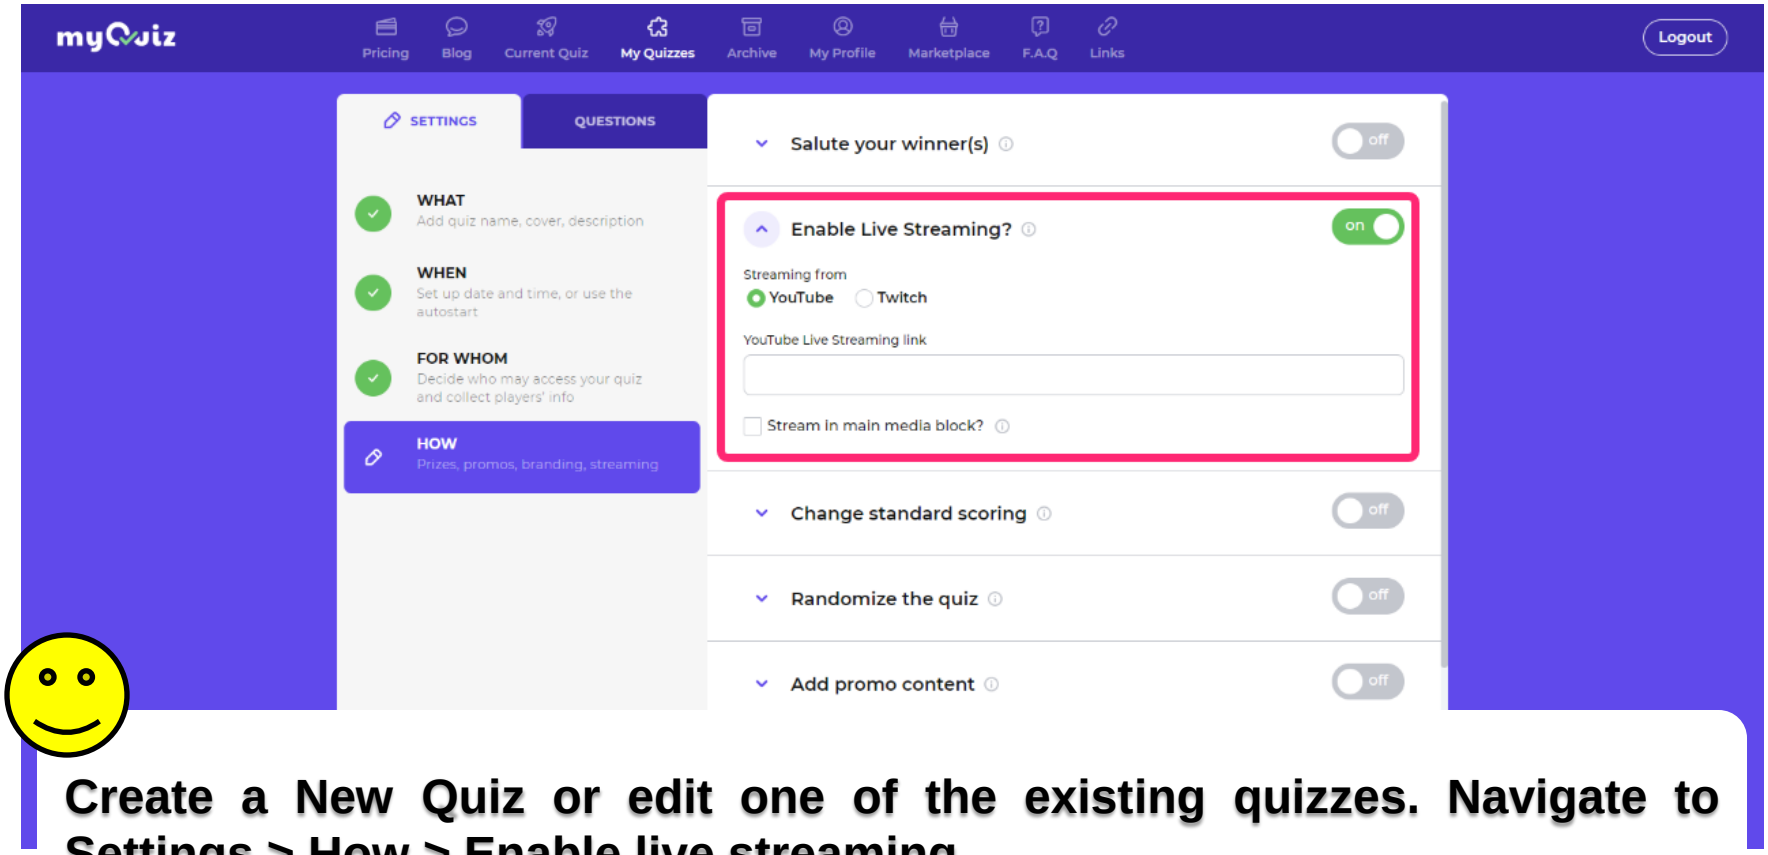
Quiz Report



To export the quiz report with all information (name, email, total points and answer), press the settings button and choose the file format which works best for you. (csv, xls)

Depending on the number of participants it may take some time to generate a report.

YouTube streaming



Create a New Quiz or edit one of the existing quizzes. Navigate to Settings > How > Enable live streaming

Paste the YouTube Live Streaming Link

By default, myQuiz will display the live stream in a separate screen area.

FAQs

How do I create a quiz?

To create a quiz you need to:

1. Log in to your myQuiz account, using this link.

To create myQuiz account please click here.

2. Go to My Quizzes section and click Create a quiz.

FAQ

What code should I enter to play the quiz?

To join the quiz you need to enter the numerical code provided by your quiz host. Please contact your quiz host to get the code or any other instructions.

Can I pause a quiz? Controls during the game.

The quiz can be paused by a host using the pause button in the right upper corner on the play screen.

The running quiz has the following controls available for a host, located in the right upper corner of the play screen:

- **Pause** will freeze the game, disabling timer and any players' activity;
- **Stop** will cancel the running quiz, as well as waiting for players screen;
- **Next**, it is a paid feature and will skip the remaining timer for the current question while switching to the next question.

Thank You
