- Quizalize is a Gamified Formative Assessment Tool.
- It is about gamified learning
- Teacher can quizzes from available resources or can freshly create a quiz
- Teacher can see how each student is progressing towards the goal
- Teacher can create new classes or connect with google classroom which serves as a tracking system for the student
- Student can play the game by joining the class using class code
- After the quiz, students see their score, the time it took them to answer each question, and a list of all questions, their answers, and correct answers
- Teachers see a quick list of which students were strong and which need help

Advantages

- Student can play the quiz more than once
- Students Performance can be assessed at every attempt.
