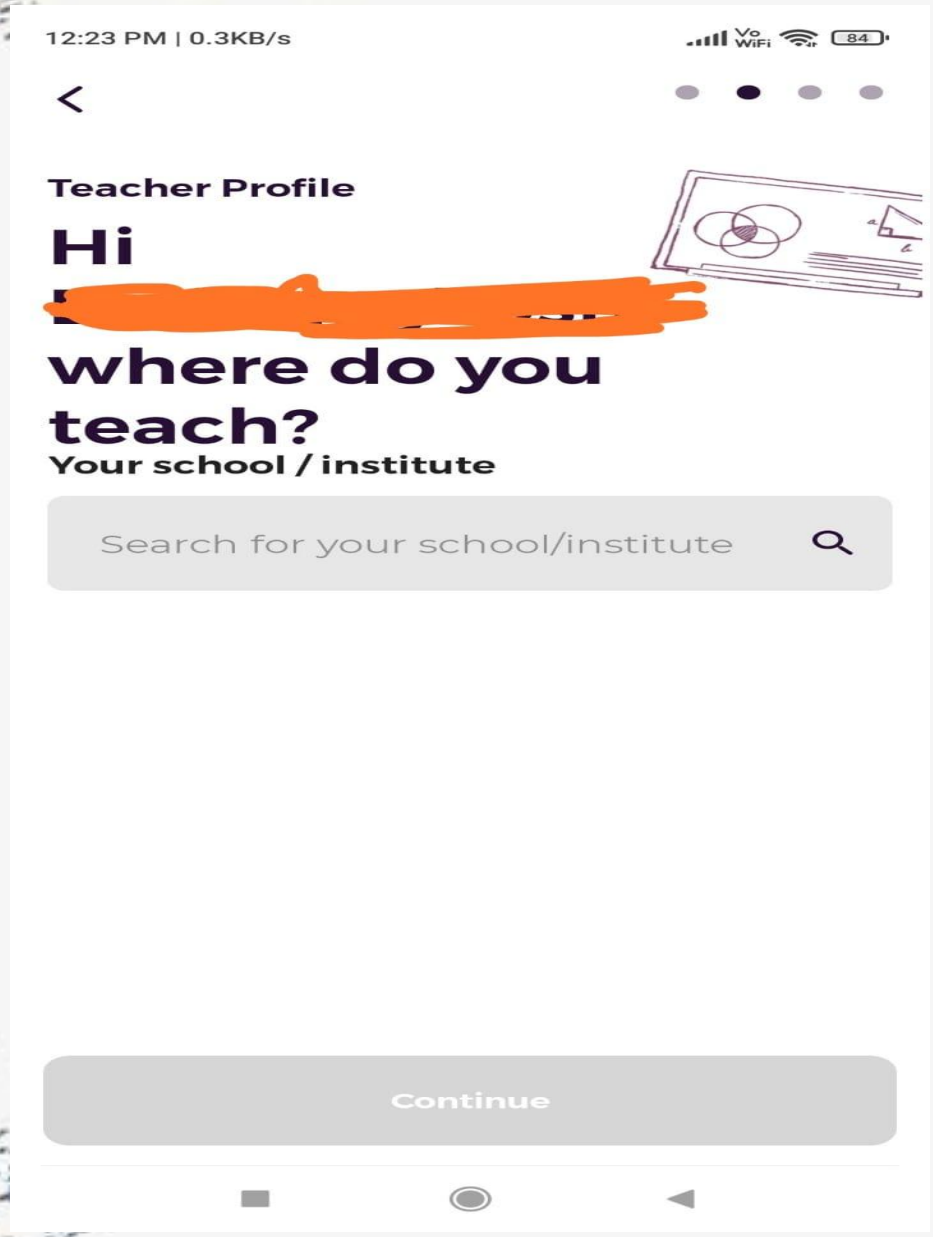
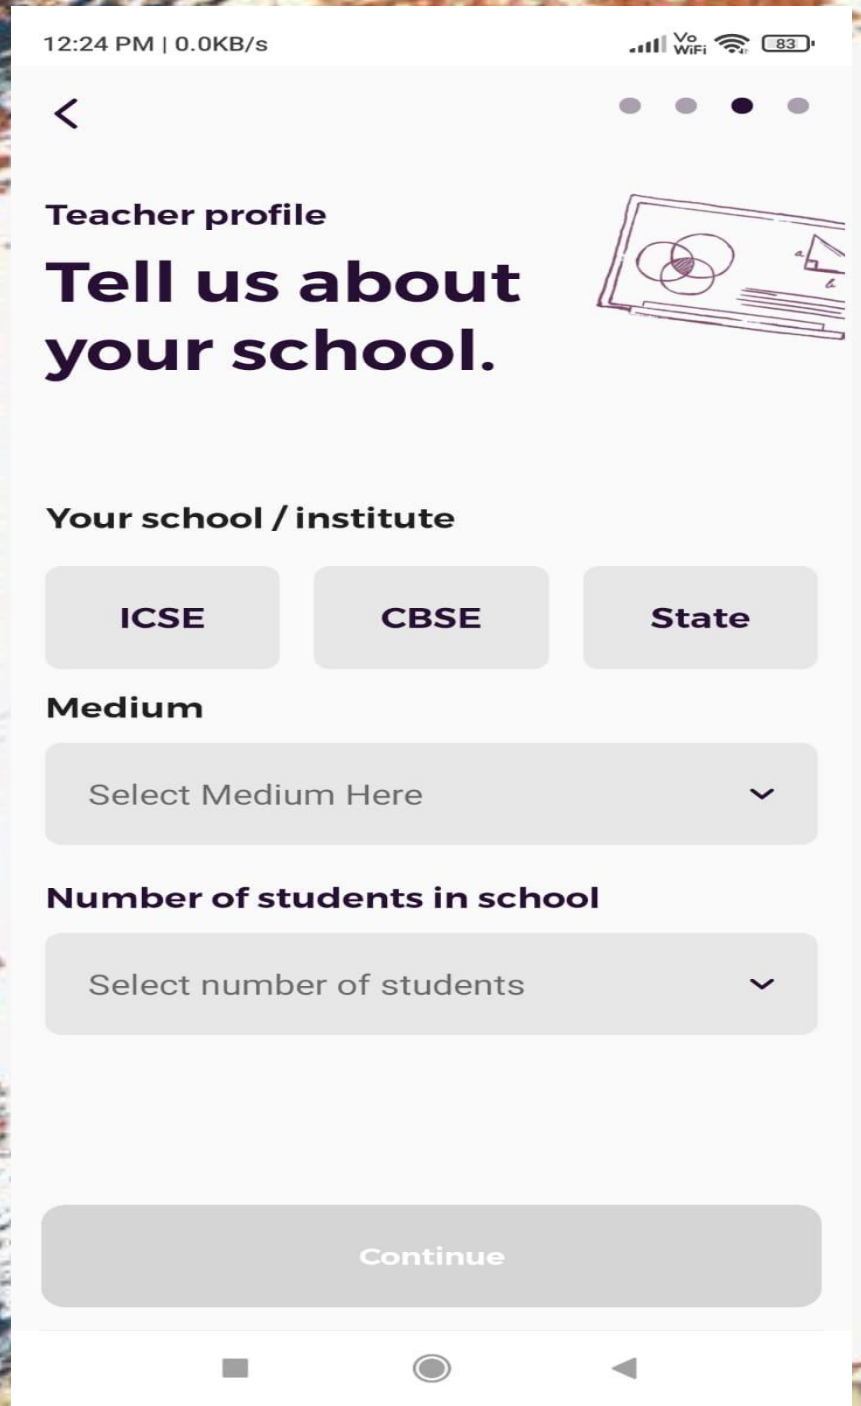
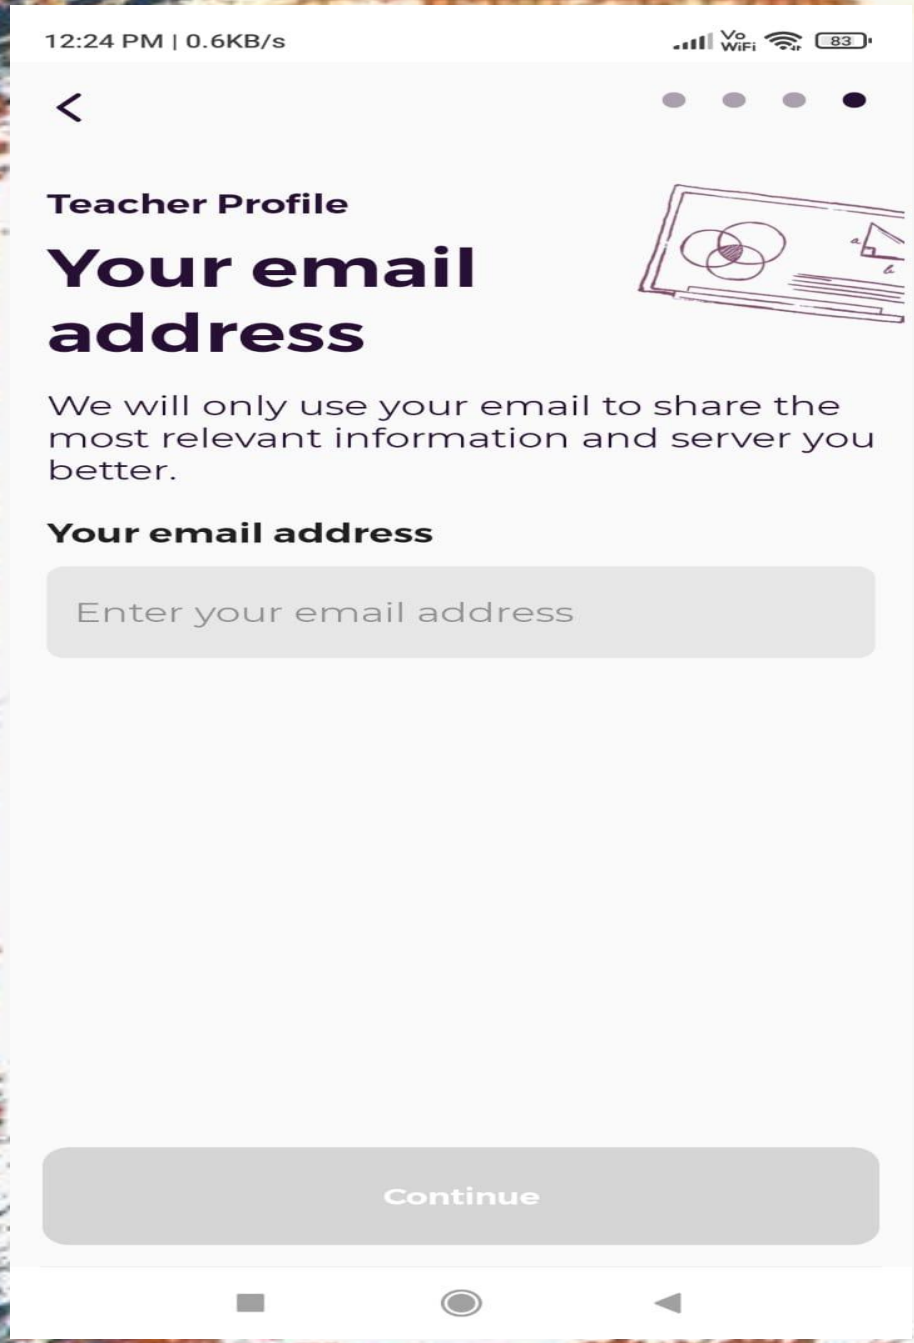
ENTER YOUR NAME , SELECT GENDER AND TOUCH ON CONTINUE ICON



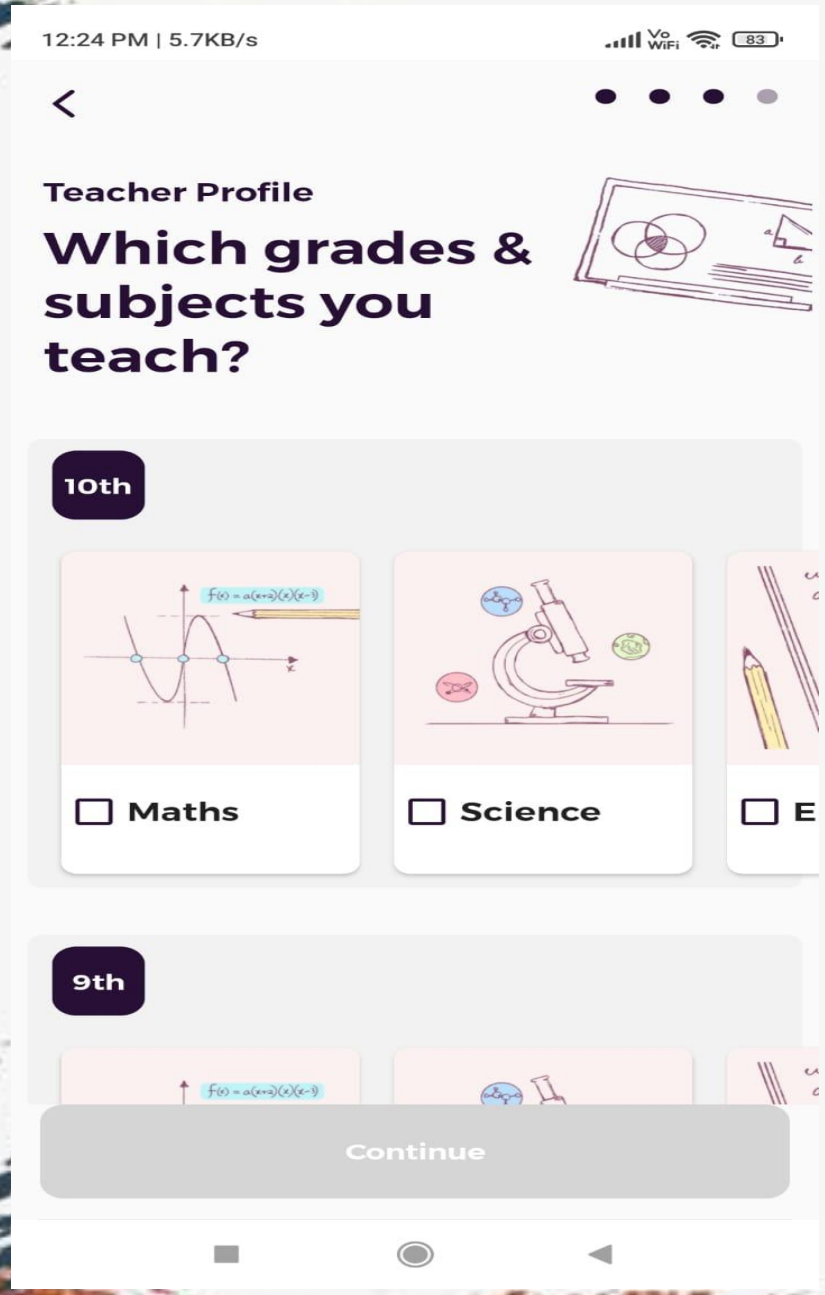
ENTER THE NAME OF THE SCHOOL / INSTITUTE



SELECT SCHOOL / INSTITUTE , SELECT MEDIUM AND NO. OF STUDENTS



ENTER YOUR EMAIL ADDRESS



SELECT GRADES AND SUBJECTS YOU TEACH

Here are simple steps to start using Homework App

1. Enter your phone number, name, school and board details

2. Create a class in 30 seconds by giving details like class strength, subject

3. Once the class is created - select from a long list of books like **NCERT, Exemplar, RD Sharma, RS Aggarwal, previous 10 years of question papers and practice questions published on diksha by CBSE** .

4. Select chapter & topic and select the questions you want to give for homework. Homework app will generate **a unique link for your homework** which you can share it with the class students.

5. Get notified as soon as your students start attempting the homework and immediately see which question and topics the students did well in as well did not do well in.

6. If any student has not attempted the homework, you can also send reminders to them to complete the homework

Key features of homework app for teachers teaching online -

Pre-Typed Questions

- Digitized question for NCERT books for Maths, Science, S.St. and English
- Questions are segregated by chapter, topic and subtopic

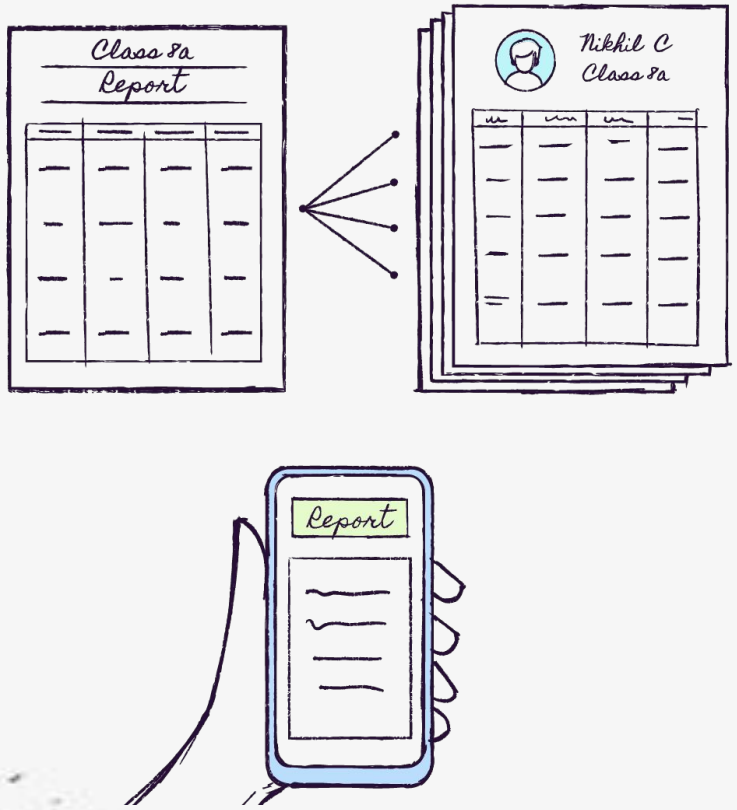
Create your online class in 30 seconds

- Just enter class, section, books and student number and your class is created in 30 seconds!

Create Homework / Revision / Quiz in Just 2 minutes

- For homework - select the chapter you are currently teaching, select topic, tick the questions and share the link of the homework - your homework created and assigned within just 2 minutes!

- For worksheet (revision) & quiz - select the chapters from which you want to give questions & select the distribution of 1,2,3,4,5 mark questions & your worksheet / quiz is automatically generated in 2 minutes!



Timely Reminders For Students

- Automatically remind students who haven't started the homework yet

Auto-grade Your Homework

- The best part about homework app is - you don't have to manually correct the homework for each student
- Homework for each student is auto-corrected as soon as they submit it and you are provided with insights

Insights About Students

- Receive statistics about how many students have started, completed the homework along with scores and grades
- Check how many students did well in a particular topic and how many did not

No Tedious Homework Management

- No longer typing the questions
- No more evaluating submissions by zooming the small photos they submit from phone
- Your phone gallery will no longer be filled with homework photographs anymore
- Your phone storage will no longer be full from the homework submissions

Automate Homework Management

- Whether it is Maths, Science, English or SST, you can use Homework app to automate your homework.

- Save almost 2 hrs of your daily time in managing homework and do it in just 2 minutes.

Features

Best features for you

FREE forever
The Basic product is free for
schools, teachers & students

6 Lakh+ Questions
In both MCQ
& Subjective format

Detailed Reports
Class, Student
& assignment level

Easy for students
Just by clicking the link, the students can do assignments

Auto grading
of assignments to save your time

Unlimited cloud storage
Saves your device space by
storing submissions in the cloud
