# कक्षा निर्माण

After clicking on New class, a modal window will pop up.

**New Class** ✕

### Create new class

You are about to create a new, temporary classroom that will be erased after 2 hours of inactivity. You will get a new room code each time. [Register a teacher account](#) to enable subscription licenses and permanent rooms.

Your name:

Your name will be displayed for the students joining your whiteboard class.

#### Settings

These settings can also be altered from the main menu after creating the room.

Enable waiting room lobby  
If you enable waiting room lobby, every student needs to be accepted by you before they are let into the room. After creating the room, there is also an other option for locking the room (disabling new students from joining completely).

Enable manual save mode for students  
Enabling manual save mode will disable the automatic whiteboard save functionality, and instead showing a "Save whiteboard" button. The whiteboards will not display or save without saving this button. This can be handy if you're on a limited or metered connection (as this drastically decreases bandwidth usage), or if you want the students to be able to draw freely and then publish / display their works at a certain time.

The form asks for the following details:

## Your name

Your name will be displayed for the students joining your whiteboard class.

# कक्षा निर्माण

Enter the details into the form, and click on **Create new class**. Your class is now ready!

WHITEBOARD.fi

Room code: e5vd4

 TOGGLE MY WHITEBOARD

Your students can now access this class by visiting

<https://whiteboard.fi/e5vd4>

 SHOW QR CODE

Their whiteboards will appear here automatically.

# कक्षा में शामिल होना

## Joining a class via room code

1. Go to <https://whiteboard.fi>
2. Click on "Join class".

3. Enter the room code and click on **Join class**.

The image shows a 'Join Class' dialog box. It has a title bar 'Join Class' with a close button. The main content area contains the text 'Enter room code' and a text input field. Below the input field, there is a small text: 'Room code:'. At the bottom, there is a note: 'Your teacher will provide you with the code for your class.' There are two buttons: 'CANCEL' and 'JOIN CLASS'.

4. Enter your name and click on **Join Whiteboard class**.

## Joining a class via URL

1. Navigate to the URL provided by the teacher.
2. Enter your name, and click on **Join Whiteboard class**.

The image shows the 'Joining Room' page. At the top, there is a green header with 'WHITEBOARD.fi' and 'Teacher: Teacher'. The main content area has the title 'Joining Room' and the text 'Your name:'. Below this is a text input field. Underneath the input field, there is a note: 'Please enter your name to continue.' There is a large orange button with a person icon and the text 'JOIN WHITEBOARD CLASS'. At the bottom, there is a button with a left arrow and the text 'BACK TO MAIN PAGE'.

3. Participate!

# कक्षा में शामिल होना

You can also share the URL as a QR code, which students can scan with their mobile devices. To open the QR code, either click on the  icon next to the room code, or on the "Show QR code" button.

The screenshot shows the Whiteboard.fi interface. At the top, there is a teal header with "WHITEBOARD.fi" on the left, "Room code e5vd4" in the center, and a gear icon on the right. Below the header is a teal button labeled "TOGGLE MY WHITEBOARD". The main content area is white and contains the text "Your students can now access this class by visiting" followed by the URL "https://whiteboard.fi/e5vd4". Below the URL are two buttons: "COPY URL TO CLIPBOARD" and "SHOW QR CODE". The "SHOW QR CODE" button is highlighted with a red border. At the bottom of the main content area, it says "Their whiteboards will appear here automatically."

# टोगल माय वाइटबोर्ड

# टोगल माय वाइटबोर्ड

The screenshot shows a software interface with a top toolbar containing various icons and a 'LIBRARY' button. A green 'PUSH' button is highlighted, and a dropdown menu is open below it. The menu contains three options, each with a document icon:

- PUSH TO STUDENTS (ALL PAGES)
- PUSH TO STUDENTS (CURRENT PAGE ONLY)
- PUSH TO STUDENTS AS BACKGROUND (CURRENT PAGE ONLY)

Pushing your current whiteboard to the students erases their work and replaces their whiteboards with yours.

If you push as a background, your students will be able to draw on your image. Normal pushes copies your whiteboard, making it possible to move around vectors etc.

# विद्यार्थियों का वाइटबोर्ड

The screenshot displays the 'TOGGLE MY WHITEBOARD' interface. At the top, there is a green header bar with the text 'TOGGLE MY WHITEBOARD' and a small icon. Below the header, the main area is titled 'Student Whiteboards' on the left and has a 'Search student' input field on the right. The main content area shows a grid of student whiteboards, each with a name and a small icon:

- Girish
- Manshi Mishra
- Mohd jayad
- Navneet kaur
- Shakshi
- Swayam
- Vinit Kumar

A vertical list of small icons is visible in the center of the grid, likely representing different whiteboard themes or settings.

WHITEBOARD.fi  
a Kahoot! company

Room code: **d3vze** 

- Enable waiting lobby
- Lock room
- Enable manual save mode for students
- Hide student names
-  Clear all student whiteboards
-  Save all whiteboards as PDF
-  Invite co-teacher
- Close room

# वाइटबोर्ड की विशेषताएं

## Instant Access

Setting up a new class whiteboard is lightning fast! No registration or logins needed!

## Access Control

You have full control of who enters your room by using the waiting lobby. There is also an option to lock your room after your class has started, preventing new users from joining.

# वाइटबोर्ड की विशेषताएं

## **Device Independent**

Works on any device - no installation or downloads needed.

## **Live Overview**

Ask a question, and let the whole class answer by using Whiteboard.fi. This way you will activate the whole class, and everybody gets the opportunity to answer!

# वाइटबोर्ड की विशेषताएं

## Versatile Tools

Insert images, backgrounds, arrows, shapes and texts! There are many different, versatile tools available

## Math

Insert math symbols, expressions or equations easily using the math editor, where you can type using a graphical interface or insert LaTeX code

# वाइटबोर्ड की विशेषताएं

## Push Whiteboards

Easily send your current whiteboard to all students! You can upload an image, and let your students draw on it, make annotations or arrange items.

## Emojis

Including over 1000 emojis that can quickly be inserted into the whiteboard.

# वाइटबोर्ड की विशेषताएं

## Privacy

No personal information is shared with third parties. Everything is deleted after the room is closed.

## Save Whiteboards

You can easily save all your student whiteboard images as a PDF file that can be saved locally to your device.

### Some ways to use Whiteboard.fi:

You can use Whiteboard.fi the same way as you use mini whiteboards in class.

Here are some ways to use whiteboard.fi:

- **Translation**
- **Picture to word:** Show a picture and students have to write the word in the target language or write a sentence about the picture.
- **Brainstorm words related to a topic:** Students can only see their boards and the teacher's board. However, you can share your screen and show all the students' answers. I would advise to click on 'hide names' to protect students' identities before sharing your screen.
- **Grammar:** Whiteboard.fi is a great tool for working on grammar (tenses, prepositions, articles, agreement, etc.).
- **Spelling**
- **Work on numbers:** Math problems and phone numbers, for example.
- **Ask the students to write a sentence using specific vocabulary or a grammar point**
- **Quiz**
- **Unjumble the sentence**
- **Listening exercise:**
  - **Gist of it:** You speak on a topic and students jot down any pieces of information they understood.
  - **Delayed dictation:** The teacher says a sentence and the students have to translate it. Ask them to wait 10 seconds before they can write anything. You can make noises during these 10 seconds so students will have to really concentrate to remember the sentence.
  - **Spot the intruder:** Share a text with the students, read it and add new elements to it. Students have to spot the added words/info and write this down on their board.
  - **Spot the error:** Share a text with the students and read it but change some of the information. Students have to spot the changes and write them down on their boards.

And many more!
