# Make Learning Interactive with

EdForms

Dr. Gulshan Mufeed
Senior Academic Consultant
CIET-NCERT

DigitalAssessment

Assessment approaches enabled by digital technologies. These technologies provides new ways of designing, facilitating and managing assessment processes.

Various terms used for DA are "*Online Assessment*", "*Technology Enhanced/Enabled Assessment*" *or eAssessment.*

Involvement of Students in Assessment with Digital tools

Teacher can encourage students to-

● Use Checklists & Reminder Apps for setting targets and to keep a check on their own progress

Upload Their own work on BASECAMP and PADLET and invite feedback and having a discussion asynchronously

For feedback from peers
● Creation of Google forms

Designing Assessment for Learning

- *Develop quiz based assessment:* Quizizz, Kahoot etc.

- *Free Online Assessment as learning resource:* e.g online quizzes on general topics or subject specific quizzes

- *Gamified assessment tools:* Kahoot, Mentimeter, Lumi to give students an opportunity to share what they know and what they don't know

Edform is a platform developed to serve as an aid to teachers for developing interactive and autograded worksheets.

With edForm,one can-

- Upload worksheets in a pdf, doc, or ppt format

- Add auto-grade questions and add interactive elements

- Share assignment links with students

- Receive insights and reports

- The live reporting feature allows to keep an eye on students' performance and guide them accordingly.
