MENDELEY... LITERATURE MANAGEMENT TOOL

MENDELEY

Referencing all your reading in your work demonstrates that you have conducted a thorough and appropriate literature search.

WHAT IS REFERENCING?

- Source of information or studies
- Citations are very important in any article
- Scientific presentation/proofing

A "citation" is the way you tell your readers that certain material in your work came from another source. It also gives your readers the information necessary to find that source again, including

WHAT IS CITATION?

- information about the author
- the title of the work
- the name and location of the company that published your copy of the source
- the date your copy was published
- the page numbers of the material you are borrowing
