Stories were always liked by everyone. We all have an inborn talent of story-telling and when ICT tools got involved, this became magical.

Digital story is nothing but the combination of Audio, Video and pictures with animation and effects.

In this technological era, Digital stories are widely used by everyone to express and share their ideas and views among others, digitally.

Digital Story

**For
Everyone**

Importance of Creating Digital Stories

Creating Digital stories or simply said, Movies are used by everyone nowadays to interact with the World either on a professional front or on a personal front through Social media.

In the education sector as well, Video content is being used by Teachers for interactive teaching learning process.

Students are creating videos for activities and assessments.

filmora 9

Filmora9 Gives You A Helping Hand To Get Started With Any New Movie Project By Importing And Editing Your Video, Adding Special Effects And Transitions And Sharing Your Final Production On Social Media, Mobile Device Or DVD.

Open the program and choose New Project/Open Project

The screenshot displays the Filmora 9 software interface. In the top-left corner, the 'filmora 9' logo is visible. Below it, the text 'Select Project Aspect Ratio:' is followed by a dropdown menu set to '16:9 (Widescreen)'. Two large buttons are presented: a red 'New Project' button with a document icon and a blue 'Open Project' button with a folder icon. On the right side, the 'Project Library' panel is active, featuring a search bar and a list of project thumbnails. The list includes 'VE Project 2' (85KB), '10b2ed' (778KB), '10B3' (1MB), 'ed1' (1MB), and 'VE Project 3' (8MB).

Filmora's Screen Components

Import Media Files/Folders

The screenshot displays the Filmora 9 software interface. The top menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The main workspace is divided into several panels. On the left, the 'Media' panel shows a tree view with 'Project Media (0)', 'Shared Media (0)', 'Sample Colors (15)', and 'Sample Video (20)'. The 'Import' menu is open, and the 'Import' and 'Record' sub-menus are highlighted with a red box. The 'Import' sub-menu is further expanded, showing options such as 'Import Media Files...' (with a 'Ctrl+I' shortcut), 'Import a Media Folder...', 'Import from a Camera or a Phone...', 'Import with Instant Cutter Tool...', 'Download Media from Facebook...', 'Download Photos from Instagram...', and 'Download Photos from Flickr...'. A large white text overlay 'Ctrl + I' is positioned in the center of the interface. The bottom of the screen shows a timeline with time markers from 00:00:00:00 to 00:01:00:00.

We can import all types of Video, Audio or Image files

The screenshot displays the Wondershare Filmora 9 software interface. At the top, the menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The main workspace is divided into several sections:

- Media Library:** Located on the left, it shows a list of media assets including 'Project Media (5)', 'Shared Media (0)', 'Sample Colors (15)', and 'Sample Video (20)'. Below this list, a grid of media thumbnails is visible, including a landscape scene, a person meditating, a logo, a yellow poster with a blue figure, and a blue poster with the text 'SURYA NAMASKAR Sun Salutation'.
- Import/Record Panel:** Located in the center, it features a search bar and a grid of media thumbnails. The thumbnails are labeled with titles such as '50K people gather to c...', 'International Day of Yo...', 'intro logo1', 'IYD', and 'PM Modi shares animat...'. The 'Import' and 'Record' buttons are visible at the top of this panel.
- Timeline:** Located at the bottom, it shows a time axis from 00:00:00 to 00:01:00:00. The current time is 00:00:00:00. The timeline is currently empty.
- Export Button:** A prominent green 'EXPORT' button is located in the top right corner of the main workspace.

The interface is dark-themed and includes various icons for navigation and editing. The overall layout is clean and professional, typical of a video editing software.

Adding File to Timeline

The screenshot displays the Filmora 9 software interface. The top menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The main workspace shows a media library on the left with 'Project Media (5)' and 'Shared Media (0)'. A red box highlights a video file titled 'International Day of Yo...' in the library. A 'Project Setting' dialog box is open in the foreground, displaying the following text:

The resolution or frame rate of the media does not match the current project settings. Do you want to change your project settings to match?

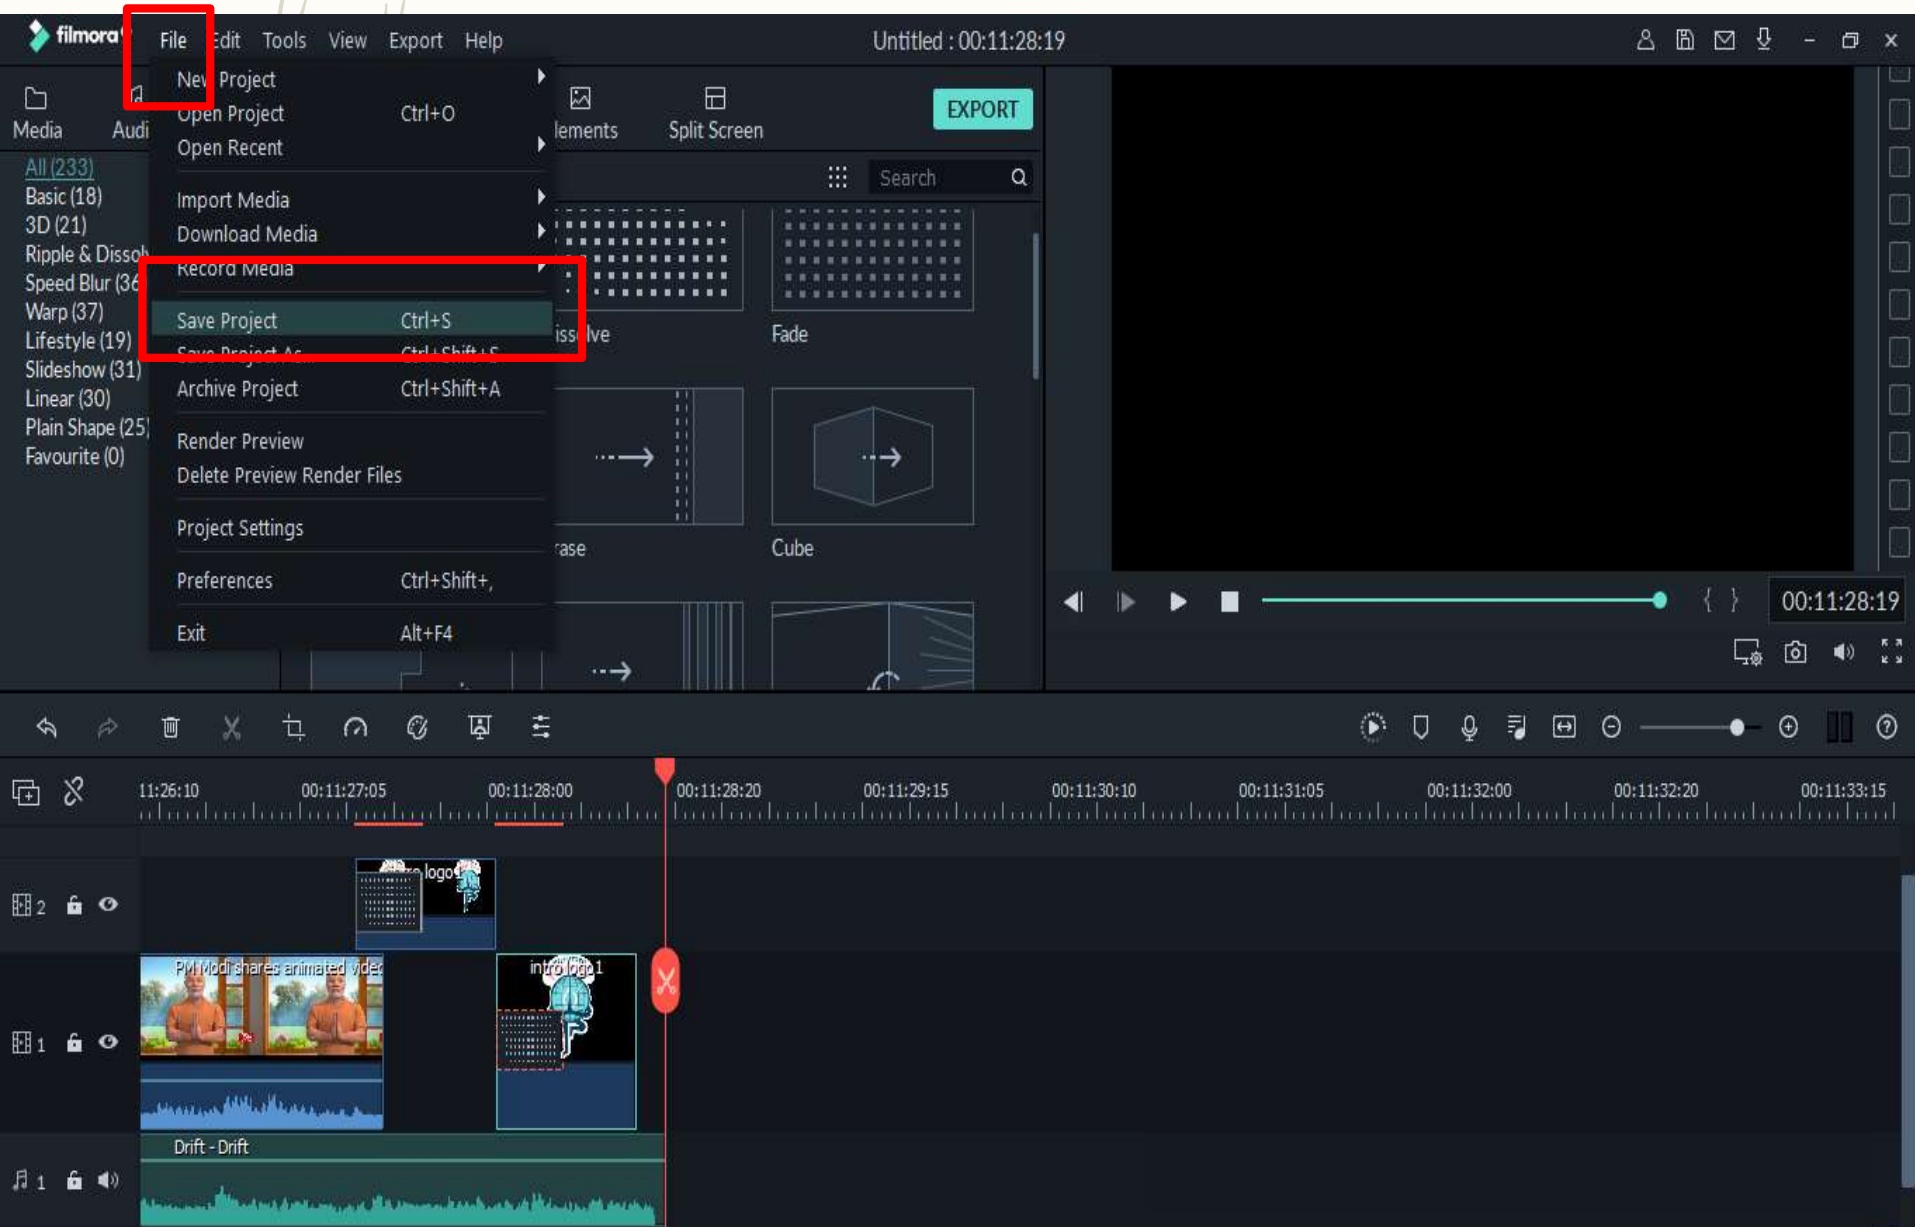

Always Ask

Match to Media: 1280 x 720 25fps

Keep Project Settings: 1920 x 1080 25fps

The background interface shows a timeline at the bottom with time markers from 00:00:00:00 to 00:01:00:00. The 'EXPORT' button is visible in the top right corner of the software interface.

Trimming Video from Play head

The screenshot displays the Wondershare Filmora 9 interface. At the top, the menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The main workspace is divided into several sections:

- Media Library:** Located on the left, it shows 'Project Media (5)', 'Shared Media (0)', and 'Sample Colors (15)'. A search bar is present with the text 'Import Record' and a search icon.
- Media Grid:** Displays five video thumbnails: '50K people gather to c...', 'International Day of Yo...' (checked), 'intro logo1', 'IYD', and 'PM Modi shares animat...'. The 'International Day of Yoga' thumbnail is highlighted with a red box.
- Preview Window:** On the right, it shows a black frame with a playhead at 00:00:15:15.
- Timeline:** At the bottom, it features a time axis from 00:00:00:00 to 00:01:00:00. A red box highlights the 'Trim' icon (a pair of scissors) in the toolbar above the timeline.
- Video Tracks:** Two video tracks are visible. The first track, 'International Day of Yoga- 2018, Com', shows a video segment with a red 'X' icon indicating a trim operation. The second track, 'International Day of Yoga- 2018, Common Yoga Protocol DVD (H)', shows a video segment with a playhead.

The text **Ctrl + B** is overlaid in large white font on the timeline area, indicating the keyboard shortcut for trimming from the playhead.

Insert and Cropping Image

The screenshot displays the Wondershare Filmora 9 software interface. The main window shows a video clip with a yellow background and a central logo featuring a blue flame-like shape with a globe inside, topped with a sun and a crescent moon. Below the logo, the text reads "योग" (Yoga) and "संभावनाओं को संभव बनाएं" (Make possibilities possible), followed by "अंतर्राष्ट्रीय योग दिवस - 21 जून" (International Day of Yoga - 21 June). The "Crop and Zoom" dialog box is open, with the "Crop" tab selected. The dialog shows a crop area over the video frame. In the bottom left corner of the dialog, the "Ratio" is set to "Original Ratio" with a dropdown arrow, and the dimensions are "211 x 129". A "RESET" button is highlighted with a red box in the left sidebar. The "RESET" button is also present in the bottom center of the dialog. The "OK" and "CANCEL" buttons are located at the bottom right of the dialog. The left sidebar contains various editing options, including "Image", "Color", and "Motion", with a "RESET" button highlighted in a red box. The bottom of the interface shows a timeline with a playhead at 00:00:00 and a video preview window showing a person in a yoga pose.

Inserting Titles on Image

The screenshot displays the Filmora 9 software interface. At the top, the menu bar includes File, Edit, Tools, View, Export, and Help. The main toolbar features icons for Media, Audio, Titles, Transition, Effects, Elements, and Split Screen, with the 'Titles' icon highlighted by a red box. An 'EXPORT' button is also visible. The left sidebar shows a library of title templates, with 'Titles (42)' highlighted by a red box. The central workspace displays a grid of title templates, including 'Title 3', 'Title 4', 'Title 5', 'Title 6', 'Title 7', and 'Title 18'. The right side of the interface shows a preview window with a yellow background, a blue and green graphic, and the text 'YOUR TITLE HERE' and 'योग'. Below the preview window is a timeline with a playhead at 00:00:10:08. At the bottom, a video preview window shows a scene with a sunset and a person, with a red 'X' icon indicating a deletion or removal action. The bottom right corner of the video preview window displays the text 'Activate Windows'.

Using Transitions and Affects

The screenshot displays the Filmora 9 software interface. At the top, the menu bar includes File, Edit, Tools, View, Export, and Help. The main toolbar features icons for Media, Audio, Titles, Transition, Effects, Elements, and Split Screen, with an EXPORT button on the right. The Transition panel is highlighted with a red box, and the 'Cube' transition is selected, also highlighted with a red box. A tooltip for the 'Cube' transition reads: "Cube Drag to the timeline to apply". The preview window shows a 3D cube with a yellow background and a blue logo featuring a flame and the text "योग" (Yoga) in Hindi. The timeline at the bottom shows a video clip titled "International Day of Yoga-2018, Common Yoga Protocol DVD (H)" and a title card "Title 10". The timeline is marked with time intervals from 00:00:00:00 to 00:01:10:00. The bottom right corner of the interface shows an "Activate Windows" watermark.

Change the Speed for Video

The screenshot displays the Filmora 9 video editing software interface. At the top, the title bar reads "filmora 9" and "Untitled : 00:10:50:08". The main menu includes "File", "Edit", "Tools", "View", "Export", and "Help". Below the menu is a toolbar with icons for "Media", "Audio", "Titles", "Transition", "Effects", "Elements", and "Split Screen", along with an "EXPORT" button. The left sidebar shows a library of assets: "All (259)", "Custom (0)", "Openers (25)", "Titles (42)", "Lower 3rds (43)", "Subtitles (15)", "End Credits (14)", "New Concept (120)", and "Favourite (0)". The central workspace shows a grid of title thumbnails labeled "Title 16" through "Title 22". The bottom timeline features a "Custom Speed" dropdown menu, which is currently open, showing options: "Slow", "Fast" (selected), "Normal", "Freeze Frame", "Reverse", and "100x". The "Fast" option is further expanded to show "2x" (selected), "4x", "8x", "20x", "50x", and "100x". The video preview window at the bottom right shows a video clip with a speed of "Fast 2.00x" applied. The timeline also shows a video clip titled "International Day of Yoga-2018, Com" and an audio waveform.

Audio Editing- Detach Audio

The screenshot displays the Filmora 9 video editing software interface. The top menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The main workspace is divided into several panels: a left sidebar with a media library, a central effects panel with various transition and effect options, a right-side menu listing keyboard shortcuts, a video preview window, a timeline, and a bottom toolbar. The 'Detach Audio' option is highlighted with a red rectangular box in the right-side menu. The video preview window shows a man with a white beard and glasses, wearing a pink shirt, with his hands pressed together in a traditional Indian greeting (namaste). The timeline at the bottom shows a video clip titled 'International Day of Yoga- 2018, Common Yoga Protocol DVD (H)' and an audio track. A watermark for 'Activate Windows' is visible in the bottom right corner.

Adjustment of Audio Volume

The screenshot displays the Filmora 9 software interface. At the top, the menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The title bar shows 'Untitled : 00:07:04:21'. On the left, the 'Audio' tab is highlighted with a red box. Below it, the 'Volume' section features a circular volume knob set to 0.00, with 'L' and 'R' indicators. To the right of the knob are sliders for 'Fade in:', 'Fade out:', and 'Pitch:'. Below these are an 'Equalizer:' dropdown menu set to 'Default' and a 'Denoise:' checkbox labeled 'Remove background noise'. A 'RESET' button is at the bottom left of the audio panel, and an 'OK' button is at the bottom right. The main preview window on the right shows a video of a man with his hands in a prayer position, with the text 'श्री नरेन्द्र मोदी' and 'भारत के माननीय प्रधानमंत्री' overlaid. The video player includes standard playback controls and a progress bar showing '00:00:18:23'. At the bottom, the timeline shows a video track with a red playhead at 00:00:18:00. Below the video track is an audio track with a green waveform. A watermark 'Activate Windows Go to Settings to activate Windows.' is visible in the bottom right corner.

Cropping Video

The image shows the Filmora 9 interface with the 'Crop and Zoom' dialog box open. The 'Crop' tab is highlighted with a red box. The main preview window displays a man in an orange shirt standing in a room with large windows. A red crop box is overlaid on the video. The 'Ratio' is set to 'Original Ratio' with dimensions 1001 x 563. The 'RESET', 'OK', and 'CANCEL' buttons are visible at the bottom of the dialog.

Rendering/ Creating Video

The screenshot displays the Filmora 9 software interface during the rendering phase. The top menu bar includes 'File', 'Edit', 'Tools', 'View', 'Export', and 'Help'. The 'Export' menu is highlighted with a red box, and the 'Create Video' option is selected, with the keyboard shortcut 'Ctrl+E' displayed next to it. Below the menu, the 'EXPORT' button is visible. The main workspace is divided into several sections: a left sidebar with a media library, a central transition effects panel, and a right preview window. The transition effects panel is titled 'filmstocks' and shows various effects like 'Dissolve', 'Fade', 'Flash', 'Erase', and 'Cube'. The preview window shows a black screen with a playback timeline at the bottom. The timeline at the bottom of the interface shows the current timecode as 00:11:28:19. The interface also features a top status bar with the project name 'VE Project IYD try : 00:11:28:19' and various window management icons. The bottom toolbar contains various editing tools like undo, redo, delete, and zoom. The timeline at the bottom shows a multi-track layout with video tracks (Track 1 and Track 2), an audio track (Drift - Drift), and a title track (intro logo 1).

Exporting Video

The screenshot shows the Filmora 9 interface with the 'EXPORT' dialog box open. The dialog is titled 'EXPORT' and has tabs for 'Local', 'Device', 'YouTube', 'Vimeo', and 'DVD'. The 'Local' tab is selected, and the 'Format' dropdown is set to 'MP4'. The 'Name' field contains 'InternationalYogaDay'. The 'Save to' field shows the path 'C:/Users/Taruna Mongia/Documents/Wonde'. The 'Resolution' is set to '1920x1080', 'Frame Rate' is '25 fps', and 'Size' is '114.3 MB'. The 'Duration' is '00:11:28'. There is a 'SETTINGS' button next to the Resolution field. At the bottom, there is a checkbox for 'Enable GPU accelerated video encoding' which is checked, and an 'EXPORT' button.
