WHY DO TEACHERS CHOOSE PLAYPOSIT ?

PlayPosit is a tool that can be used to add interactive elements to course videos to improve student engagement. Users can turn their videos into “bulbs” that include various interactions like quiz questions, reflections, in-video discussions, and more.

PLAYPOSIT

Effortless Authorship

Editing platform of Playposit allows instructors to enrich video content with a variety of powerful interactions ranging from multiple choice questions to graded fill-in-the blanks.

PLAYPOSIT

Learner Engagement

Interactive features mirror the traditional classroom experience and learners receive feedback to increase long-term retention, tripling learning efficacy over standard video.

PLAYPOSIT

PLAYPOSIT & SAMR MODEL

- **Substitution:** Students use Playposit to submit their answers online rather than on paper.
- **Augmentation:** Students take note on additional visual cues in order to provide a more comprehensive assessment for technical execution.
- **Modification:** Student upload their own videos for annotation by the educator.
- **Redefinition:** Students create their own Playposit videos and quizzes to quiz each other on important information found in their own videos.
