Video Conferencing through Cisco Webex meeting

Dr. Suresh G. Isave

Associate Professor

S.P.Mandali's

Tilak College of Education, Pune

Let’s take a tour

- Installation
- Key settings
- Various function buttons in conferencing
- Menu in conference room
- Variety of controls in conference rooms
- Official resources on Webex

Features of Webex meetings

- Free Version – 100 participants, 40 mins.
- Meeting schedule and share
- Video conferencing
- Screen sharing
- Chatting
- Notes
- Host controls
- Record meeting
- Preserving records

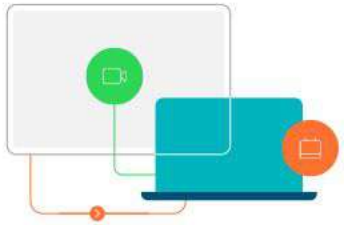
Version information



Cisco Webex Meetings Desktop App

The Webex Meetings desktop app allows you to start and join meetings quickly and easily. You can start and join meetings from desktop app or click a button to schedule a meeting from your calendar application. Starting with version 39.10, the Webex Meetings desktop app no longer includes integrations with Microsoft Outlook, Microsoft Office, IBM Lotus Notes, or other applications. When you install the latest version of the Webex Meetings desktop app, any previous versions of those integrations will be uninstalled. To install those integrations, download Cisco Webex Productivity Tools.

1 Online Teaching : Precautions (Teacher's perspective) Dr. Suresh G. Isave Pune

2 Online Teaching
- Content
- Communication
- Resourcefulness

3 Online Teaching – Precautions
- More precautions should be taken online because online classes happen in open world and not with school or class, so some legal issues may occur.
- All actions leaves digital foot prints behind.

4 Online Teaching – Precautions
- Start online teaching for a school when you receive official instructions from school authority.
- Use the platform as suggested or provided by a school.
- School should train teachers for the use and security features

5 Online Teaching – Precautions
- Parents' consent must be obtained for an online teaching and record should be preserved.
- Data and Privacy Policy of an app should be communicated with the parents and their written (online or offline) consent should be taken about the use of an app.

6 Online Teaching – Precautions

Welcome to virtual learning

It's more important than ever to keep classrooms connected.

We're here to support teachers, faculty, students, and parents/guardians in the transition to virtual learning. On this page you'll find materials to learn how to teach remotely, guides for learning

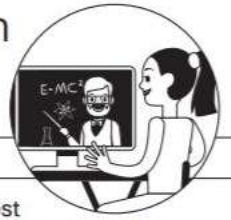
Top 6 ways to reach students at home



1. Make joining class always accessible.

Students are sick, or out of town? Let a them join class virtually through Webex. Then you don't have to plan any make-up work!

2. Post homework reminders and announcements.

Share any deadlines or updates in your classroom Webex Teams

3. Create student working groups

Bring collaboration home by starting Webex Teams Spaces for student groups, so they can work together and help each other, in a place you can see.

4. Record lessons to distribute.

Having a Webex meeting on during your classroom allows the day to be saved for later and shared with whoever needs it.

5. Allow for questions when they need it.

Because students will share when they're stuck, you'll know when help is needed. And sometimes, they help each other.

6. Have an inspiration Space – share quotes and video's.

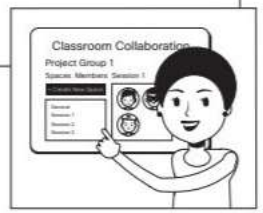
Have some fun and keep students engaged. Use a separate Webex Teams Space from class updates to allow your class to share where they're seen classroom topics come alive in real life, kudos, and more.

Give Webex a try today, to get more connected with remote students!

Powered by

Cisco Webex

Inspire student collaboration in a new way.



Take the stress out of group work for your students by giving them one place they can collaborate any time, no matter where they are. Enter Webex Teams.

By doing group work in a place you're present, you can oversee progress and provide a helping hand when they want it.

1. ***Make class groups:***
Split up your class into equal size groups, try to mix abilities as much as you can. Ask them to decide on a name for their working group.

2. ***Create Spaces:***
Create a space for each group. Enter their chosen working group name and add all the members.

3. ***Welcome message:***
Create a welcome message and post it in each of the Spaces. Post the assignment and include useful information your students will need.

4. ***Hints and tips:***
Give some hints and tips to the class on how to get the most out of their group. Let them know they can add files and @mention each other or you to ensure their message is seen.

5. ***Keep your ear to the ground:***
Be sure to check the Spaces periodically. At a glance you can see if any group or individual is struggling and provide the help that's needed.

6. ***Add or remove members:***
If working groups change just add or remove students as needed, no need to create new Spaces and lose information, conversation and context.

PRO TIPS

Use @All to get everyone's attention in a space.

Don't be too present in the groups, give your students room to express and collaborate together.

Help is never far away for your students with Webex Teams.
