DIGITAL INFRASTRUCTURE FOR KNOWLEDGE SHARING (DIKSHA)

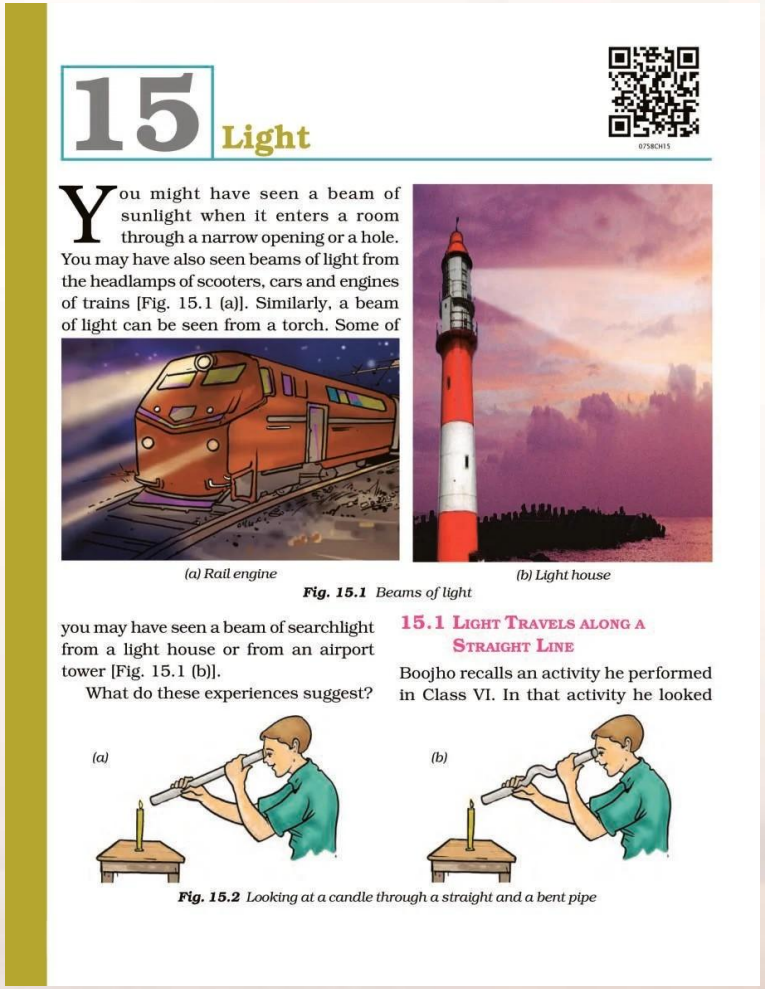
DIKSHA

One Nation One Digital Platform

for School Education under PM e-Vidya Program

35 States/UTs in India leveraging

energized textbooks with digital content on DIKSHA



15 Light

You might have seen a beam of sunlight when it enters a room through a narrow opening or a hole. You may have also seen beams of light from the headlamps of scooters, cars and engines of trains [Fig. 15.1 (a)]. Similarly, a beam of light can be seen from a torch. Some of you may have seen a beam of searchlight from a light house or from an airport tower [Fig. 15.1 (b)].

What do these experiences suggest?

(a) Rail engine (b) Light house

Fig. 15.1 *Beams of light*

15.1 Light Travels along a Straight Line

Boojho recalls an activity he performed in Class VI. In that activity he looked

The difference between Contributing as an Individual and Organisation

The Review process is the key

- Individual content review is done by sourcing organization directly
- For the organization, it is a 2-level review
