

Creating Blog Using Wordpress

WORDPRESS

Introduction

- Introduction of WordPress (CMS)
- What is Content Management System (CMS)? The Content Management System (CMS) is a software which stores all the data such as text, photos, music, documents, etc. and is made available on your website.
- Most used CMS Drupal, Joomla & WordPress

Features

- User Management
- Media Management
- Theme System
- Extend With Plugins
- Multilingual

Advantages

- User friendly Dashboard
- There are many plugins and themes available , user can customize as per need.
- It allows creating different roles for blog such as admin, author, editor and contributor

System Requirement for WordPress

- Database : Mysql
- Web Server
- Xampp (Multi Platform)
- Wamp (Windows)
- Lamp (Linus)
- Mamp (Macintosh)
- Browser
- PHP Compatibility 5.2+

Xampp Server

- <https://www.apachefriends.org/download.html>

XAMPP for **Windows** 7.3.27, 7.4.16 & 8.0.3

Version		Checksum			Size
7.3.27 / PHP 7.3.27	What's Included?	md5	sha1	Download (64 bit)	154 Mb
7.4.16 / PHP 7.4.16	What's Included?	md5	sha1	Download (64 bit)	156 Mb
8.0.3 / PHP 8.0.3	What's Included?	md5	sha1	Download (64 bit)	156 Mb

Installation xampp Server

XAMPP Control Panel v3.2.4 [Compiled: Jun 5th 2019]

Create store Database

- <http://localhost/phpmyadmin/>

The screenshot shows the phpMyAdmin interface for a MySQL server at 127.0.0.1. The 'Databases' tab is active, displaying a 'Create database' form and a table of existing databases.

Create database form:

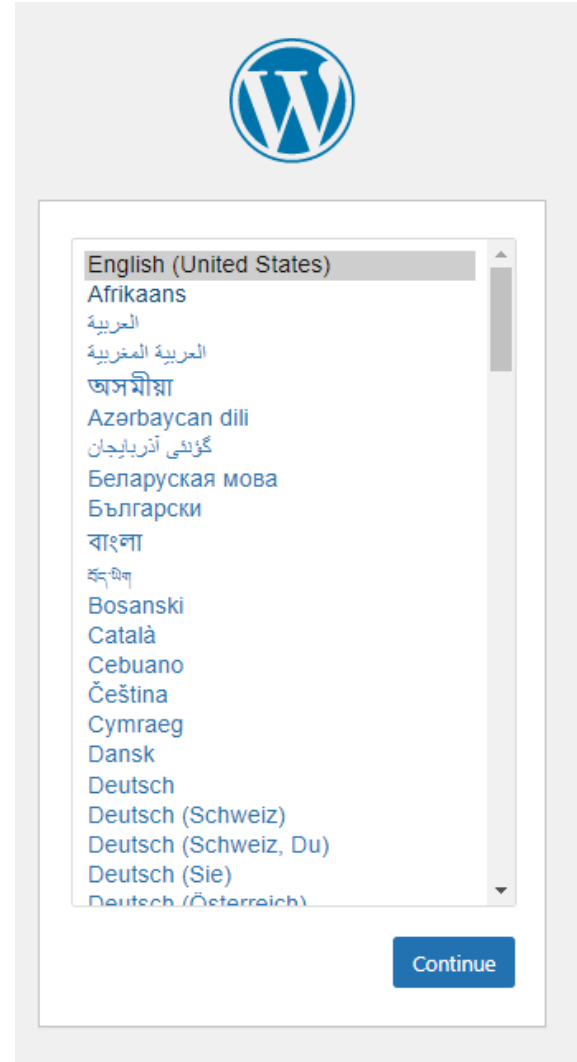

- Database name:
- Collation:
- Button:

Table of existing databases:

Database	Collation	Action
<input type="checkbox"/> betashop	utf8mb4_general_ci	<input type="button" value="Check privileges"/>
<input type="checkbox"/> information_schema	utf8_general_ci	<input type="button" value="Check privileges"/>
<input type="checkbox"/> mysql	utf8mb4_general_ci	<input type="button" value="Check privileges"/>
<input type="checkbox"/> performance_schema	utf8_general_ci	<input type="button" value="Check privileges"/>
<input type="checkbox"/> phpmyadmin	utf8_bin	<input type="button" value="Check privileges"/>
<input type="checkbox"/> root	utf8mb4_general_ci	<input type="button" value="Check privileges"/>
<input type="checkbox"/> test	latin1_swedish_ci	<input type="button" value="Check privileges"/>

WordPress Installation

- <http://localhost/>

WordPress Installation

- <http://localhost/>

Welcome to WordPress. Before getting started, we need some information on the database. You will need to know the following items before proceeding.

1. Database name
2. Database username
3. Database password
4. Database host
5. Table prefix (if you want to run more than one WordPress in a single database)

We're going to use this information to create a `wp-config.php` file. **If for any reason this automatic file creation doesn't work, don't worry. All this does is fill in the database information to a configuration file. You may also simply open `wp-config-sample.php` in a text editor, fill in your information, and save it as `wp-config.php`.** Need more help? [We got it.](#)

In all likelihood, these items were supplied to you by your Web Host. If you don't have this information, then you will need to contact them before you can continue. If you're all ready...

Let's go!

WordPress Installation

- <http://localhost/>

Below you should enter your database connection details. If you're not sure about these, contact your host.

Database Name	<input type="text" value="root"/>	The name of the database you want to use with WordPress.
Username	<input type="text" value="root"/>	Your database username.
Password	<input type="password"/>	Your database password.
Database Host	<input type="text" value="localhost"/>	You should be able to get this info from your web host, if localhost doesn't work.
Table Prefix	<input type="text" value="wp_"/>	If you want to run multiple WordPress installations in a single database, change this.

WordPress Installation

- <http://localhost/>

All right, sparky! You've made it through this part of the installation. WordPress can now communicate with your database. If you are ready, time now to...

Run the installation

WordPress Installation

- <http://localhost/wp-login.php>

The image shows the WordPress login interface. At the top center is the WordPress logo, a blue 'W' inside a circle. Below it is a white rectangular form with a light blue border. Inside the form, there are two input fields: the first is labeled 'Username or Email Address' and contains the text 'admin'; the second is labeled 'Password' and contains a series of black dots, with a small blue eye icon to its right. Below the password field is a checkbox labeled 'Remember Me' which is checked. To the right of the checkbox is a blue button with the text 'Log In'. Below the form, there is a link that says 'Lost your password?' and a link with a left-pointing arrow that says 'Go to demo site'.

WordPress Installation

The screenshot displays the WordPress admin dashboard in a browser window. The address bar shows 'localhost/wp-admin/'. The top navigation bar includes 'demo site', 'New', and the user 'Howdy, admin'. The left sidebar contains a menu with items: Dashboard, Home, Updates, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area features a 'Welcome to WordPress!' message with a 'Dismiss' button. Below the message are three columns of links: 'Get Started' with a 'Customize Your Site' button and a link to 'change your theme completely'; 'Next Steps' with links to 'Write your first blog post', 'Add an About page', 'Set up your homepage', and 'View your site'; and 'More Actions' with links to 'Manage widgets', 'Manage menus', 'Turn comments on or off', and 'Learn more about getting started'. At the bottom, there are three widgets: 'Site Health Status' (no information yet), 'Quick Draft' (with title and content fields and a 'Save Draft' button), and 'WordPress Events and News'. A large dashed box on the right side contains the text 'Drag boxes here'.

WordPress Dashboard

The image shows a screenshot of the WordPress dashboard. At the top, there is a dark header bar with the WordPress logo, a home icon, the text "demo site", a notification icon with "0", and a "+ New" button. Below the header is a dark sidebar menu with the following items: "Dashboard" (highlighted in blue), "Home", "Updates", "Posts", "Media", "Pages", "Comments", "Appearance", "Plugins", "Users", "Tools", "Settings", and "Collapse menu". The main content area is titled "Dashboard" and contains a "Welcome to WordPress!" message. Below the welcome message, it says "We've assembled some links to get you started:" followed by a "Get Started" section with a blue button labeled "Customize Your Site". Below the button, there is a link: "or, [change your theme completely](#)". At the bottom of the dashboard, there is a "Site Health Status" section with expand/collapse icons. It displays "No information yet..." and a paragraph explaining that site health checks run periodically and provides a link to "visit the Site Health screen" to gather information about the site now.

WordPress Dashboard

Plugin Installation

The screenshot shows the WordPress dashboard's 'Plugins' section. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins (highlighted), Installed Plugins, Add New, Plugin Editor, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Plugins' and includes an 'Add New' button. Below the title, there are filters for 'All (2)', 'Inactive (2)', and 'Auto-updates Disabled (2)'. A 'Bulk actions' dropdown menu is set to 'All' with an 'Apply' button. The plugin list contains two entries:

<input type="checkbox"/>	Plugin	Description
<input type="checkbox"/>	Akismet Anti-Spam Activate Delete	Used by millions, Akismet is quite possibly the best way in get started: activate the Akismet plugin and then go to yo Version 4.1.9 By Automattic View details
<input type="checkbox"/>	Hello Dolly Activate Delete	This is not just a plugin, it symbolizes the hope and enthus Hello, Dolly. When activated you will randomly see a lyric f Version 1.7.2 By Matt Mullenweg View details
<input type="checkbox"/>	Plugin	Description

At the bottom of the list, there is another 'Bulk actions' dropdown menu set to 'All' with an 'Apply' button.

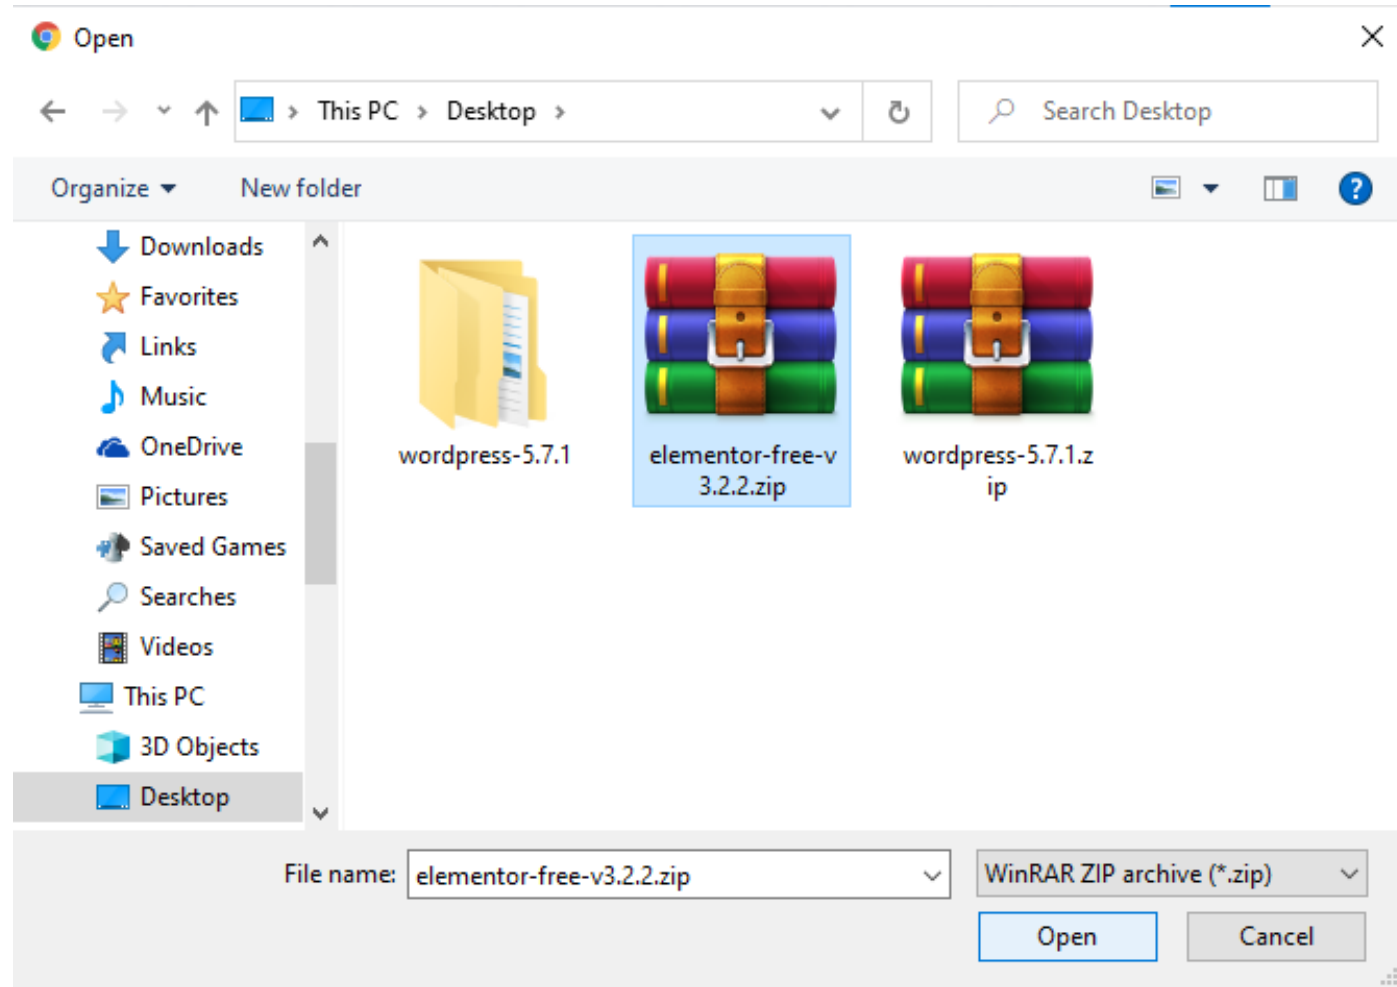

Plugin Installation

The screenshot shows the WordPress dashboard's 'Plugins' section. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins (highlighted), Installed Plugins, Add New, Plugin Editor, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Plugins' and includes an 'Add New' button. Below the title, there are filters for 'All (2)', 'Inactive (2)', and 'Auto-updates Disabled (2)'. A 'Bulk actions' dropdown menu is set to 'All' with an 'Apply' button. The plugin list contains two entries:

Theme Installation

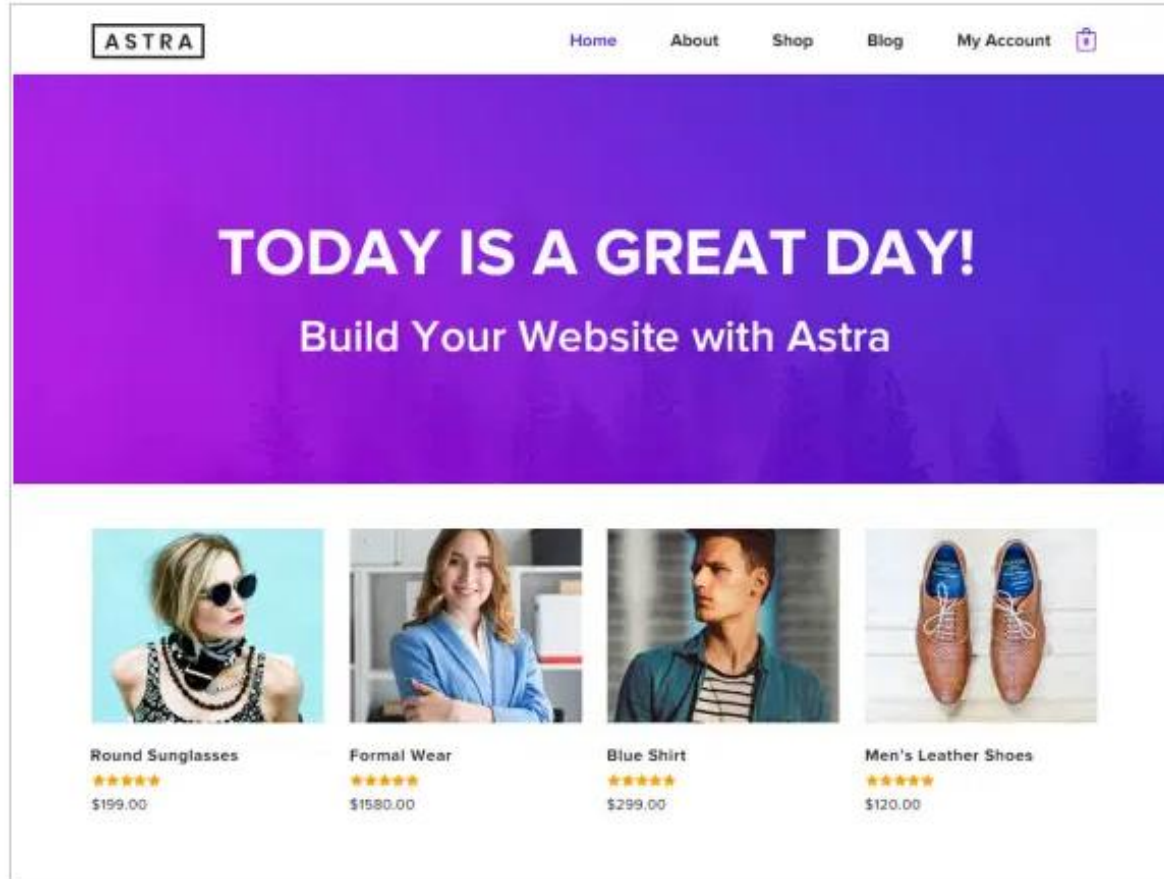

The screenshot displays the WordPress 'Add Themes' page. At the top, there's a navigation bar with 'demo site', '0' notifications, and a 'New' button. The user is logged in as 'admin' with a 'Howdy, admin' greeting and a 'Help' dropdown. The main heading is 'Add Themes' with an 'Upload Theme' button. Below this, there are tabs for '15' (selected), 'Featured', 'Popular', 'Latest', 'Favorites', and a 'Feature Filter' icon. A search bar labeled 'Search themes...' is on the right. The theme cards are arranged in a grid:

- Twenty Twenty-One:** Labeled 'Installed' with a green checkmark. Text: 'The works of Berthe Morisot, 1800s-era French painter'. Buttons: 'Activated', 'Customize'.
- Mighty:** Preview image showing a woman's eye. Text: 'PREMIUM FEATURES TO ENABLE YOUR VISION REFLECT ON YOUR WEBSITE'. Subtext: 'Finally, a WordPress Theme that's Easy and Powerful'. Button: 'View More Features'.
- Flash:** Preview image showing a cup of coffee and glasses. Text: 'AWESOME MULTI-PURPOSE THEME'. Subtext: 'EASY TO USE, EASY TO CUSTOMIZE, EASY TO DISPLAY'. Buttons: 'View More Features', 'View More Features', 'View More Features'.
- Catch Store:** Preview image showing a woman in a white dress. Text: 'THE AUTUMN COLLECTION'. Button: 'View More Features'.
- Intensity:** Preview image showing a man in a suit. Text: 'WELCOME TO INTENSITY'. Button: 'View More Features'.
- Yummy:** Preview image showing a plate of food. Text: 'HONEST TASTE'. Button: 'View More Features'.

The left sidebar contains the WordPress admin menu: Dashboard, Posts, Media, Pages, Comments, Elementor, Templates, Appearance (highlighted), Themes, Customize, Widgets, Menus, Background, Theme Editor, Plugins, Users, Tools, Settings, and Collapse menu. The bottom status bar shows the URL 'localhost/wp-admin/themes.php'.

Name

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

Parent Category

Categories, unlike tags, can have a hierarchy. You might have a Jazz category, and under that have children categories for Bebop and Big Band. Totally optional.

Description

The description is not prominent by default; however, some themes may show it.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularized in the 1960s with the release of Letteraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

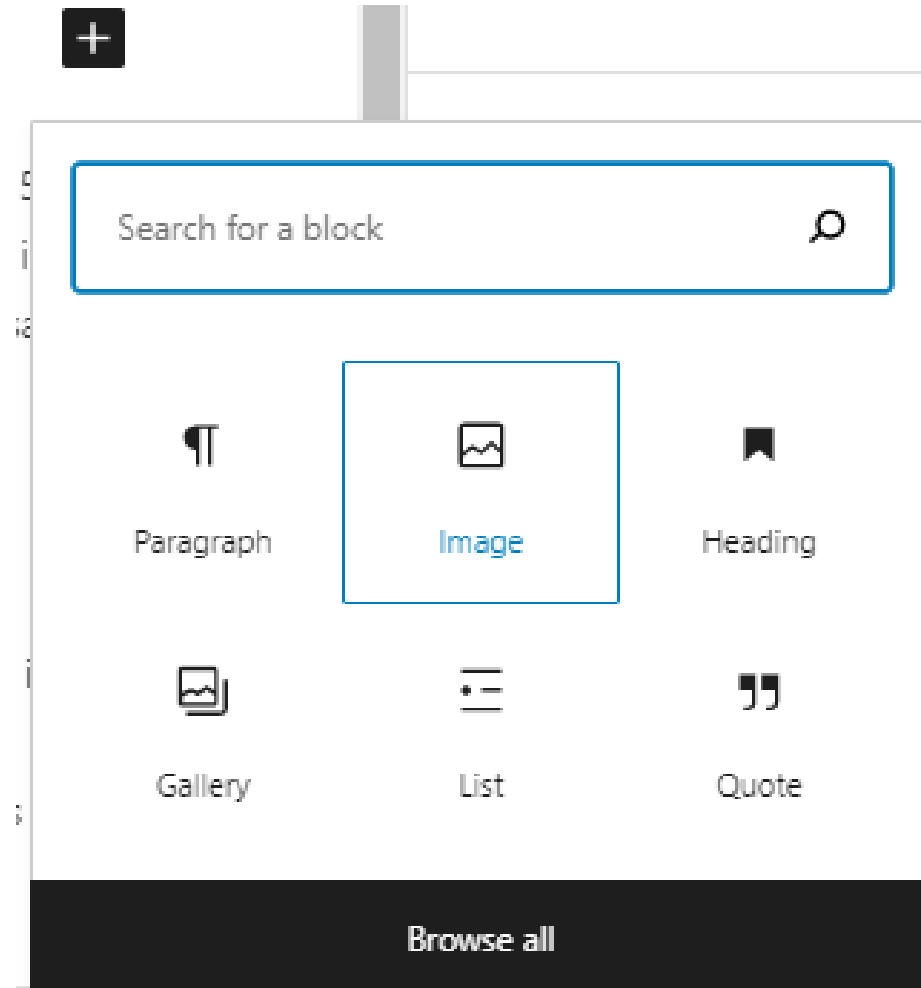

Why do we use it?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

Where does it come from?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of
