

The background features a dark blue-to-purple gradient with faint, light-colored circular patterns and a scale. The scale is a semi-circular arc with tick marks and numbers ranging from 160 to 260. The circular patterns consist of concentric circles, some solid and some dashed, with arrows indicating a clockwise direction.

# **CREATING ASSESSMENT USING HOT POTATOES**

**Nisha Singh**  
**Centre for Online Education**  
**IGNOU**

# ASSESSMENT

Nothing that we do to, or for, our students is more important than our **assessment of their work** and the feedback we give them on it. The results of our **assessment influence our students for the rest of their lives and careers** – fine if we get it right, but **unthinkable if we get it wrong.**'

# QUALITIES OF GOOD ASSESSMENT

- Aligning assessment with objectives
- Well defined criteria and standards
- Authentic and holistic tasks
- Promote self-direction
- Sufficient and timely formative feedback
- Reliable and valid

# TYPES OF ASSESSMENT

- Formative Assessment
- Summative Assessment

***“When the cook tastes the soup, that’s formative assessment; when the customer tastes the soup, that’s summative assessment.”***

Paul Black

# USE OF TECHNOLOGY IN ASSESSMENT

- Consistent, accurate results
- Immediate feedback
- Innovative approaches based around use of creative media and online peer and self-assessment
- Choice in the timing and location
- Capture of wider skills and attributes
- Efficient submission, marking, moderation and data storage processes

# How to Create Assessment ?

**Hot Potatoes**

# HOT POTATOES

- Hot Potatoes suite includes six applications
- create interactive multiple-choice, short-answer, jumbled-sentence, crossword, matching/ordering and gap-fill exercises
- created by the Research and Development team at the University of Victoria Humanities Computing and Media Centre

# HOT POTATOES: HOME PAGE

The screenshot shows a web browser window with the address bar at [hotpot.uvic.ca](http://hotpot.uvic.ca). The page title is "Hot Potatoes Home Page".

### News - 2020-04-16

- A minor update to Hot Potatoes (version 7.0.3.0) has been released. This removes references to the HTML non-breaking-space entity which is no longer defined in HTML5.
- Agnès Simonet has released new versions of her excellent Hot Potatoes add-ons, along with those originally written by Michael Rottmeier, for version 7 of Hot Potatoes. You can find them at <http://hpaddons.free.fr/>.
- Hot Potatoes 7 was first released in 2019. You should be able to install and use it alongside version 6.3 if you would like to keep using both versions. The source files are not compatible, though, so if you have custom source files for version 6, you will need to rewrite them for version 7. We are now working on an updated version of [Quandary](#), which is available for pre-testing.

### What is Hot Potatoes?

The *Hot Potatoes* suite includes six applications, enabling you to create interactive multiple-choice, short-answer, jumbled-sentence, crossword, matching/ordering and gap-fill exercises for the World Wide Web. Hot Potatoes is freeware, and you may use it for any purpose or project you like. It is not open-source. The Java version provides all the features found in the windows version 6, except that you can't export a SCORM object from Java Hot Potatoes.

### Downloads

Download Hot Potatoes for Windows from here:

- [Hot Potatoes 7.0 installer](#) (Hot Potatoes version 7.0.3.0 for Windows 98/ME/NT4/2000/XP/Vista/7/8/8.1/10 as well as Linux under Wine).

The older version 6.3.0.5 is also [available for download](#).

Download Java Hot Potatoes:

The Windows taskbar at the bottom shows two instances of `setup_hotpot_630...exe` with progress indicators. The system tray shows the date and time as 1:10 PM on 5/28/2020.

A SCORM package is a collection of files which are packaged according to an agreed standard for learning objects. The SCORM activity module enables SCORM or AICC packages to be uploaded as a zip file and added to a course.

Content is usually displayed over several pages, with navigation between the pages. There are various options for displaying content in a pop-up window, with a table of contents, with navigation buttons etc. SCORM activities generally include questions, with grades being recorded in the gradebook.

SCORM activities may be used

- For presenting multimedia content and animations

### Gap-fill exercise

Fill in all the gaps, then press "Check" to check your answers. Use the "Hint" button to get a free letter if an answer is giving you trouble. You can also click on the "[?]" button to get a clue. Note that you will lose points if you ask for hints or clues!

Read the following chapter and fill in the gaps [New question and ideas](#)

Buddha attained enlightenment in Bodhi Gaya under  tree. Buddha taught in the  language which was the language of the ordinary

people, so that everybody could understand his message.
