What is animation?

Animation is a process where pictures and images are arranged in sequential order to create the illusion of movement in a scene.

Types of animation

Traditional Animation

2D Animation

3D Animation

Stop Motion Animation

STOP MOTION ANIMATION

Stop motion animation is a technique to bring static objects to life on screen. This is done by moving the object inch by inch and photographing each frame(movement). When all the frames are played in sequence it shows movement as animation.

Required Equipment

- Android Mobile
- Tripod / Selfie Stick

INT. KITCHEN - DAY

Scene

It is a very spacious room , neat and clean and with all the modern conveniences.

The only thing that can be considered out of place is the six foot tall SKELETON dressed in a LONG BLACK ROBE. A SCYTHE is propped up against the kitchen bench. He is staring at a small bowl of fruit.

This is MISTER D. aka the Grim Reaper

MISTER D.

Dialogue

Oh hey there. Sorry about meeting you like this, but, it is normally more customary for me to come to you. Oh and I will. Eventually. But for now I'm afraid you caught me in the middle of a job.

He absently rubs his finger over the fruit.

MISTER D.

Dialogue

You know something, this is the part of the job that I really hate. The waiting.

Mister D. grabs an apple from the bowl and takes a bite.

The piece of apple rolls out from the bottom of his robe.

MISTER D.

Dialogue

Don't get me wrong, I'm not saying that I have the best job in the world. But why can't people ever be where they are supposed to?
