Recommendation

The aim of assessment in the culture of our schooling system will shift from one that is summative and primarily tests rote memorization skills to one that is more regular and formative, is more competency-based, promotes learning and development for our students, and tests higher-order skills, such as analysis, critical thinking, and conceptual clarity. The primary purpose of assessment will indeed be for learning

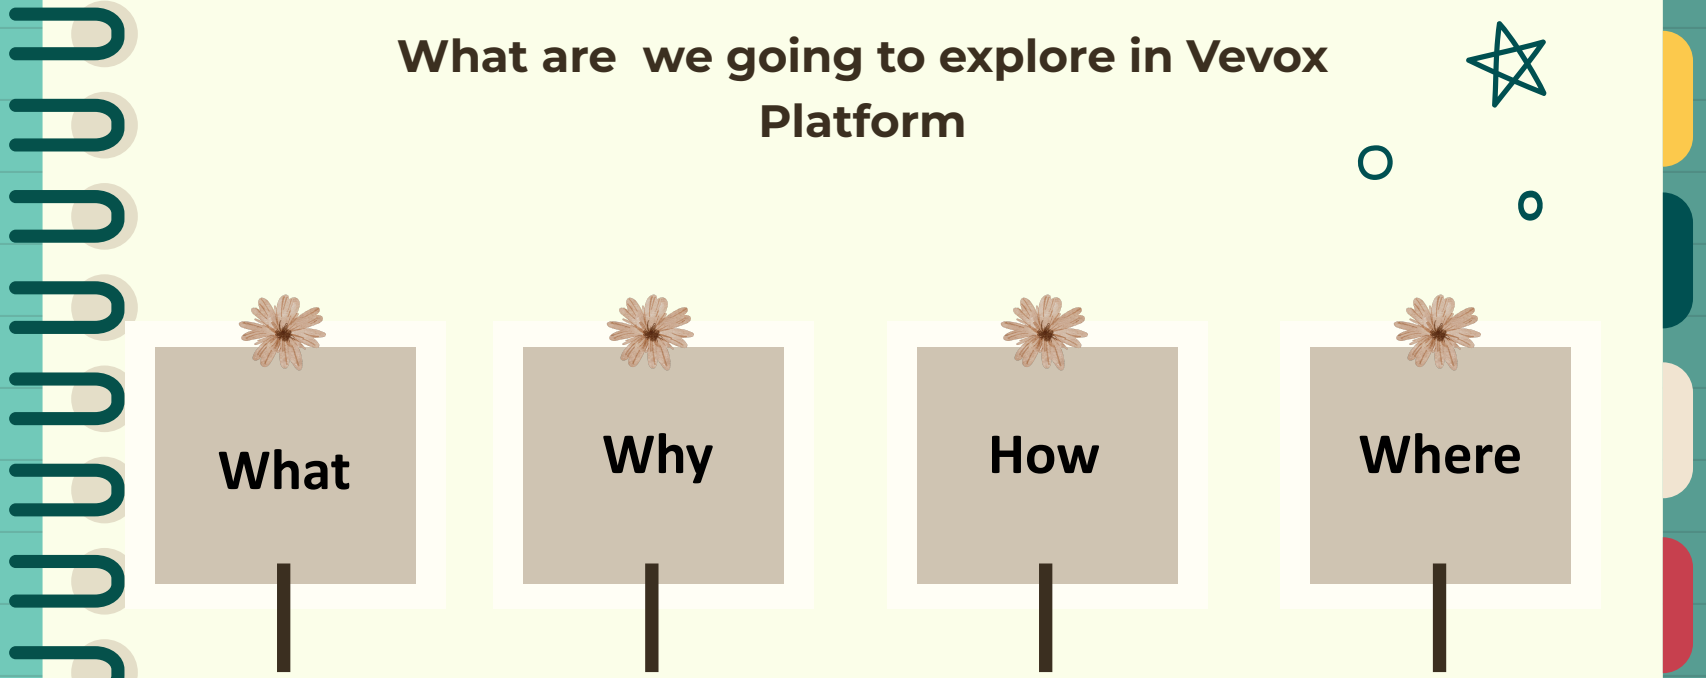
What are we going to explore in Vevox Platform



What is Vevox?

Vevox is primarily known as an audience response system, where participants can respond to questions, polls, and surveys during live events or presentations. There might have been updates or changes to Vevox since then, so it's always a good idea to check their official website or documentation for the most up-to-date information.
