Inaugural issue of CIET's new biannual online journal in English, viz., Indian Journal of Educational Technology (ISSN 2581 8325) launched

From the Joint Director's Desk

Amarendra P. Behera

Joint Director, CIET

It gives me immense pleasure in writing the editorial page of CIET's newsletter for the first quarter of the year 2019. This was also the last quarter of the financial year 2018 -19. These were the intense times for CIET as projects of the FY 2018 -19 were wound up while new proposals for the FY 2019 - 20 were finalised and approved by Institute's Advisory Body (IAB), Academic Committee (AC) and Programme Advisory Committee (PAC). CIET not only completed all the projects on time as proposed but, also spent allotted budget for the same. This was also the time of immense pride and satisfaction for the entire family of CIET when e-pathshala, an app developed and maintained by CIET, NCERT, recieved recognition from the Government of India and won the Digital India Award 2019 under the Best Mobile App (Gold) category. The award was given by the Honorable Union Minister for Law and Justice, Electronics and IT, Dr Ravi Shankar Prasad in New Delhi on February 22, 2019. The app imitates a typical school in the virtual space by providing opportunities for "learning on the go". The app provides a variety of educational e-resources including digital textbooks, audios, videos, periodicals and other such digital resources. One can enter into this e-pathshala as a student or a teacher or a parent or an educator and access the curated e-resources free on their palm.

During the time of Board examinations, CIET in collaboration with the Department of Educational Psychology and Foundations of Education (DEPFE) - National Institute of Education (NIE), NCERT, New Delhi along with a few independent counsellors and teachers organised one hour of live discussions daily on Kishore Manch channel (a 24x7 Educational DTH TV channel under the SWAYAM PRABHA initiative of the Government of India) to help

students face examinations squarely without being stressed about it. The live studio at CIET was flooded with questions from viewers and was widely appreciated by students, teachers and parents alike.

CIET continued the production of audio, video and other e-contents. In this regard an important initiative of producing audio books was taken up during this period. CIET is converting all the textbooks of NCERT into audio books. This will go a long way in helping children with special needs (CWSN) in navigating an important resource during the school life. NCERT has decided to energise its textbooks by providing appropriate digital resources in all its textbooks, which can be accessed by scanning quick response (QR) codes given in the new books. To facilitate accessing e-resources, a mobile app epathshala scanner has been developed. The works on mapping of these resources have been in full swing and we hope to complete it sooner than later. Two cycles of school MOOCs programs under SWAYAM initiative were successfully completed and preparations for the third cycle of MOOCs were accomplished.

I am also happy that CIET started its first journal, viz., Indian Journal of Educational Technology this year. We wish to make this a platform of debates and discussions among the peers on educational technology, ICT in education and learning, etc.

We extend our heartfelt thanks to all those who directly or indirectly provided resource support for successful completion of the tasks in hand. I hope CIET will continue to recieve the support from all its well wishers in future too. I take this opportunity to congratulate the editorial team of CIET newsletter for having brought all issues on time.

The current issue of CIET's Newsletter i.e. January-March, 2019 corresponds with the closing of the financial year therefore, a brief description of the activities taken up and status of all the programmes taken up by CIET has been given here.

REPORT ON IAB, AC & PAC

NCERT has a robust and rigorous mechanism for scrutinising and finalising academic proposals. In CIET, it began with the several rounds of brainstorming meetings of the faculty members for deciding the new proposals for the financial year 2019-20 as given in the Table: Programme Proposals at a Glance (2019-20). These proposals were discussed formally in the Institute's Advisory Board (IAB) meeting held on 1st February, 2019 at CIET, NCERT, New Delhi. The meeting was Chaired by Prof. Amarendra P. Behera, Joint Director, CIET and attended by Shri Virender Kumar, Director DECU, Ahmedabad; Prof. Bharti Baveja, AUD, New Delhi and Shri Aburaj B., Director SIET, Kerala besides by the internal

members of CIET and other departments of National Institute of Education (NIE), NCERT, New Delhi. Based on the inputs and advice in the IAB meeting, these proposals were further modified and placed in the Academic Committee (AC) for consideration. The AC met on 19-21 February, 2019 in the Conference Room of Zakir Hussain Block, NCERT, New Delhi under the chairmanship of Prof. A.K. Srivastava, Dean (Academic & Research), NCERT under the overall guidance of Prof. H.K. Senapaty, Director, NCERT in the presence of external members such as Prof. M.A. Sudhir, Professor Emeritus (UGC), Gandhigram Rural Institute, Dindigul, Tamil Nadu; Prof. G. Ravindra, Ex-Joint Director, NCERT, New Delhi; Prof. Ajit K. Mohanty, Bhubaneswar, Odisha; Prof. M.A. Siddiqui, Former Chairperson (NCTE), Faculty of Education, Jamia Millia Islamia, New Delhi; Prof. Venita Kaul, Munirka Enclave, New Delhi and other internal members of NIE, CIET and Pandit Sundarlal Sharma Central Institute of Vocational Education (PSSCIVE), Bhopal. Each proposal was discussed in details by the AC. Based on the recommendations/observations on the programme proposals, the faculty members of CIET again revised the proposals which were placed for the approval before Program Advisory Committee (PAC) of NCERT where in other proposals from all constituent units of NCERT were also discussed threadbare and final decisions were taken. PAC meeting was held from 26-28 March 2019 at NCERT, New Delhi. Prof. H. K. Senapaty, Director, NCERT Chaired the meeting which was attended by external members, viz., Dr. R. Prabhakara Raya Professor, Department of Management Studies Pondicherry University, Puducherry; Dr. Suresh Tandon, Former Vice-Chairman, Punjab School Education Board, Vidya Bhawan, Phase 8, SAS Nagar, Mohali; Prof. Mahesh Chand Sharma, School of Education, IGNOU, New Delhi; Sh. EXAM HELPLINE

Guidance for Students on Kishore Manch

In order to help students, parents and teachers during examinations, especially for students appearing in Board examinations, CIET, NCERT decided to initiate a series of live interactive programs on its SWAYAM Prabha's channel # 31 also known as 'Kishore Manch'. This series was titled as 'Guidance for Students: Exam Helpline'. It began on 20 February 2019 and concluded on 3rd April 2019 with the purpose to resolve the issues, problems and challenges of students and other stakeholders related to examinations. Besides, streaming live on DTH-TV Channel, the programmes were simulcast on NCERT Official Youtube Live streaming. The live telecast meant that it were not limited to students only but extended to teachers, parents and general audience as well. The program was conducted in collaboration with Department of Educational Psychology and Foundations of Education (DEPFE), NCERT. In this series, which lasted for 29 days,

5 faculty members of DEPFEE and 23 school counsellors and CIET faculty members provided their expertise during the Live Exam helpline programme. These counsellors were from different schools and NGOs located in Delhi-NCR. The objectives of the programme were as follows: i) to provide guidance for students, parents, and teachers on various issues, worries, and challenges related to examinations. ii) to provide a platform for connecting counsellors with the students. iii) to help the students to face the examinations in a positive manner iv) to discuss various techniques to cope up with exam stress and anxiety and v) to discuss the smart ways to study such learning styles, concentration techniques etc. Overall, 424 queries were received from students, teachers and parents through synchronous as well as asynchronous ways. It was interesting to observe that more than half of the queries (51.41%) were asked by the viewers who connected with exam helpline live interaction through television. On the other hand, 41.03% viewers asked queries through Youtube comments during the live streaming. In addition, 7.54% of the issues of students, parents and teachers were received through Email. Students, teachers and parents from 17 states and 1 UT participated in the exam helpline to resolve their queries. The top states from where most of the queries were received and responded were Uttar Pradesh (34%), Bihar (14.7%) and Madhya Pradesh (11.8 %). During the programme, participants from North-eastern states such as Assam (1.3%) and Tripura (0.4%) also asked questions. Similarly, other states such as Rajasthan, Maharashtra, Haryana, Jharkhand, Chhatisgarh, West Bengal, Uttarakhand, Gujarat, Jammu & Kashmir, Orissa, Punjab, Karnataka and UT of Delhi entered their presence during the 29 days long Live interaction on Examinations. It is to be noted that students from Nepal also asked queries during the programme. It indicated that the SWAYAM Prabha channel and its live telecast is being watched across the country. Most of the queries received (23.9%) were related to different subjects such as Maths, Science, Social Science, Languages etc. Secondly, 18.6% students, teachers and parents asked about their career path and various competitive exams such as UPSC, NEET, NET, GATE, IIT etc. Further, 11.4% of students faced issues related to remembering whatever learnt and memorising them for examinations. Moreover, 8.3% of viewers inquired about managing time, study routines and similar time saving study methods. The same number of viewers sought to know the pattern of exam and dealing with questions during examinations. About 7% students, teachers and parents felt stress and anxiety regarding exams, while 4.8 % each were worried about study resources and learning styles. Besides, 2.6 % of students wanted to perform better in their examinations. Only, 0.7 % viewers raised the challenges of using internet and mobile phones during the examinations.

SCRIPTING

Script writing is a step which needs to be followed before an audio or video program. It is a written proforma of idea behind any program. Therefore, a good quality script written in a particular format is indispensable. A script has to be theme-based and should contain correct and clear information about the knowledge that is aimed to be delivered. In order to facilitate this, all the program scripts are discussed thoroughly in the Script Appraisal Committee. The scripts discussed are either passed or are held back for the suggestions to be incorporated. Following is the list of scripts that were placed before the script committee for assessment during January-March, 2019.

PREVIEW

For all the audio and video programs produced in CIET-NCERT, there is a process of assessment in order to maintain the quality of programs. This is done after the process of editing is over. All the programs made are previewed every Friday from 9.30 am before the programs are finalized. The list of previews done during January-March, 2019 has been given below:

As nominated by MHRD, Central Institute of Educational Technology (CIET), NCERT is the national coordinator for one SWAYAM-PRABHA DTH TV Channel (31) named as Kishore Manch. CIET provides contents related to secondary and senior secondary students and teacher education for 6 hours which gets repeated 3 times to make it 24X7 Channel.

As a pre-planning, the syllabus and schedules of secondary and senior secondary school level are examined month-wise and accordingly programs are arranged for telecast on the channel. A weekly plan has also been developed for making this process more relevant and cover all the subjects such as arts, languages, science, commerce, social sciences and humanities. The programmes on performing arts, crafts, physical education, teacher education etc. are also included in the schedule. Apart from scheduling syllabus-based programmes, the programmes related to special days, festivals, national and international days/events are taken into consideration while developing weekly and monthly schedules. The motive of the channel is to provide access of quality education to every child of the country.

About 1899 programs have been telecast on the Kishore Manch channel as per schedule between January to March 2019. It is noted that the total number includes the repetitions also. Among these 1899 programs, 965 were the lecture series of different subjects of class XI (359) and XII (606). Apart from lecture series, there were 695 programs covering the syllabus of secondary and senior secondary level. Similarly, teachers related 52 programs were also included in the schedule. Three hundred and sixty eight general programs related to art, craft, culture, dance, music, physical education etc. have also been telecast on the channel between January to March 2019.

Besides the types of programs, the analysis of the schedule also reported the subject-wise categorization of programs (see table 1) between January to March, 2019.

Subject-wise categorisation of programs scheduled and telecast between Jan to March 2019 on SWAYAM Prabha # 31 (Kishore Manch)

Subjects	No. of Programs telecast	% of programs telecast
Sciences (Biology, Chemistry, Physics)	658	34.64
Social Sciences (Economics, Geography, History, Political Science, Sociology)	365	19.22
Mathematics	170	08.96
Language	135	07.11
Art, Culture, Crafts, Dance and Music	126	06.63
Accountancy	105	05.52
Psychology	54	02.84
Business Studies	44	02.32
Others	242	12.74
Total	1899	100

As shown in the above table, there were 658 and 365 programs related to different disciplines of sciences and social sciences respectively. One hundred and seventy programs included the Maths lecture series, maths activities and other related programs. Similarly, language related programs (135) were mostly of Hindi language. The schedule covered 126 programs depicting Indian art and culture through different series of videos. Furthermore, Accountancy (105), Psychology (54) and Business Studies (44) subjects of senior secondary level were also placed in the schedule. Two hundred and Forty two other programs were related to physical education, teachers, famous personalities, travelogues, environment and in generic in nature.
