## From the Joint Director's Desk

Similar to that of the previous quarters, CIET, NCERT carried out the regular activities under its various programmes.

As per the Budget Announcements of February 2022 the GoI has planned to start 200 more DTH TV channels for states/UTs in various Indian languages in order to enhance inclusivity, reach and access to quality educational eContent for the learners all across the length and breadth of India. For this, the 'Training Programme for Channel Coordinators and Subject Matter Experts of States/UTs for PM eVIDYA DTH TV Channels', Phase-1 was organised for five States/UTs (Chandigarh, Haryana, Himachal Pradesh, Jammu & Kashmir and Punjab) in collaboration with SCERT Chandigarh at Chandigarh from 17-19 August 2022. About forty five subject matter experts, technical experts and channel coordinators participated in the training programme.

In order to develop quality eContent for teaching-learning process through Television, which is generally a one-way medium of interaction with the learners, the guidelines for development of engaging eContent for the same is required. For this purpose, a 'Guidelines for Development of Engaging eContents for Educational Television' was drafted as per the directions of PMO, GoI. In order to finalise the guidelines, a half-day meeting for the 'Finalization of Guidelines for Development of Engaging eContents for Educational Television' was organised on 27 September, 2022 at CIET, NCERT where opinion from experts from related fields was sought.

For a healthy and academic discourse to take place in the field of ET and ICT, CIET also publishes an online open access journal in English. The July 2022 issue of Indian Journal of Educational Technology (IJET) was published on its website.

Apart from these activities, coordination meetings of DIKSHA with States/UTs, recording of ISL programmes and training programmes for other activities were also carried out.

We will keep our stakeholder updated on the activities and interventions carried out by the institution on a regular basis.

Under **Effectiveness of Augmented reality based e-content and Virtual labs on achievement in Science of class IX school students**, review of available literature was done and questionnaire was being developed. Achievement test in science based on AR app and virtual lab e-content has been drafted. Reaction towards Virtual Labs (VL) and Augmented Reality (AR) Content Scale for students and teachers was drafted. Two-day workshop on 22-23 September 2022 was conducted at CIET for finalizing the achievement tests.

In **An evaluative study of ICT @ School Scheme under Samagra Shiksha**, collection of related literature was carried out. Based on tools used at 2017-18 CIET third party evaluation study, Survey tools for Teachers, Students and School Administrators have been drafted as part of data gathering tools development. A three-day workshop was conducted from 6-9 September 2022 for development and finalisation of tools for data collection. A total of five questionnaires, one each for principal, IT instructor, Teacher, Special Educator and Students have been finalized in the same.

Based on review of related literature, a final draft of tools (questionnaires and FGD) were developed in **Effectiveness of ICT based accessible interventions (UDL-based e-Contents) of NCERT on holistic development of students with special needs**. These tools are for studying the awareness, need-based assessment, practices & usage, and feedback about the 'UDL based eContent such as ISL videos and audiobooks developed by CIET, NCERT' for students, teachers and special educators. The tool finalisation workshop was organised from 30-31 August 2022. In addition, a Focus Group Discussion was planned for students. Four schools of Delhi-NCR were identified for pilot testing of finalised tools. Planning for visiting these schools for pilot testing is in progress. In-house packaging of UDL based eContents is in progress in online as well as offline mode.

In **Effectiveness of ICT in Education Courses on ICT competency and Techno-Pedagogy Integration Competency of in-service Teachers at Secondary Level**, review of related literature and development of research tools is in progress. A sample ICT module was being drafted as a general guideline in reference to the workshop to be conducted.

Review of related literature and development of research tools was carried out in **A study on the effectiveness of Cyber Safety & Security Awareness Package implemented through the cascade and direct intervention models**.

Under **A study of different modes of online education adopted by Elementary school teachers during the pandemic**, the collection of related literature and the modification of data gathering tools is in progress. Letters have been sent to five RIEs to nominate a faculty member for being part of the study and preparation is being done for the further action.

In **e-Learning initiatives in India for students at secondary stage during Covid-19 pandemic: experience based need assessment including gender perspective**, questionnaire for Teachers and for Focussed Group Discussion for parents of students have been prepared, translated in Hindi and finalised. Data collection was completed in two states: Gujarat and Sikkim.

A five-day interventional Training programme on “Integration of ICT in Education as a part of Implementing ICT integration at school stage: A block-level research study” was organised in RIE Ajmer for the training of 40 Hurda teachers from 22-26 August 2022 under **Implementing ICT interventions at school stage: a block level research study**. Data collection was done in this workshop through Pre and Post-test during the intervention training programme. Data analysis of this block indicated that the knowledge and skill-based competency was enhanced after the training and there was a change in the attitude of teachers after the training programme. Planning of interventional training programme in second block i.e. Icchawar, Madhya Pradesh of the study is being done.

Under **Development and dissemination of e-content at Foundational Literacy and Numeracy level**, a workshop was conducted from 5-7 September 2022 at CIET, NCERT for developing audio scripts in three languages: English, Hindi and Urdu. About 19 resource persons participated in the workshop and about thirty eight scripts were developed.

In **Development of Curriculum Based materials of Augmented Reality (AR) and Virtual Reality (VR) Simulation and 3D videos in science for School Education**, a two-week workshop was conducted from 11-23 July 2022 for the development of AR simulations. About 8 AR simulations were developed and reviewed. About 10 Scripts for development of AR storyboards were also written. Nine AR 3D rendered videos were developed and mapped as per the chapters on DIKSHA portal/mobile app. Four AR simulations were updated in the new ePathshala AR App on NCERT Server. Bug reported and fixed in the beta version of the app.
