

School AI: Artificial Intelligence tool in Education

**Transforming Teaching, Learning, and the Future of
Classroom**

A Presentation by:

Ms. Sukanya De (M.Sc Mathematics, B.Ed)

Assistant Teacher at Mahadevi Birla Shishu Vihar,

Kolkata, West Bengal

National ICT Awardee 2019

TOPICS COVERED :

- Role of AI in modern educational scenario.
- What is 'SchoolAI' or 'SchoolAI.com' ?
- Key Features
- Navigating Through SchoolAI.com
- Concept of Spaces
- Discovering and Creating Spaces
- Mission Control and Bell Ringer
- Teacher Tools
- Chatbots and AI Assistants
- Organizing Spaces

Multitasking by teachers in

modern classrooms

- Repetitive Tasks : Generating Lesson Plans, Worksheets, Planning Syllabus, Curriculum, Attendance, Activities

- Catering to Diverse Learning Capacities of Students.

- Evaluation and Monitoring of Learning Outcome-
Assessment and Grading

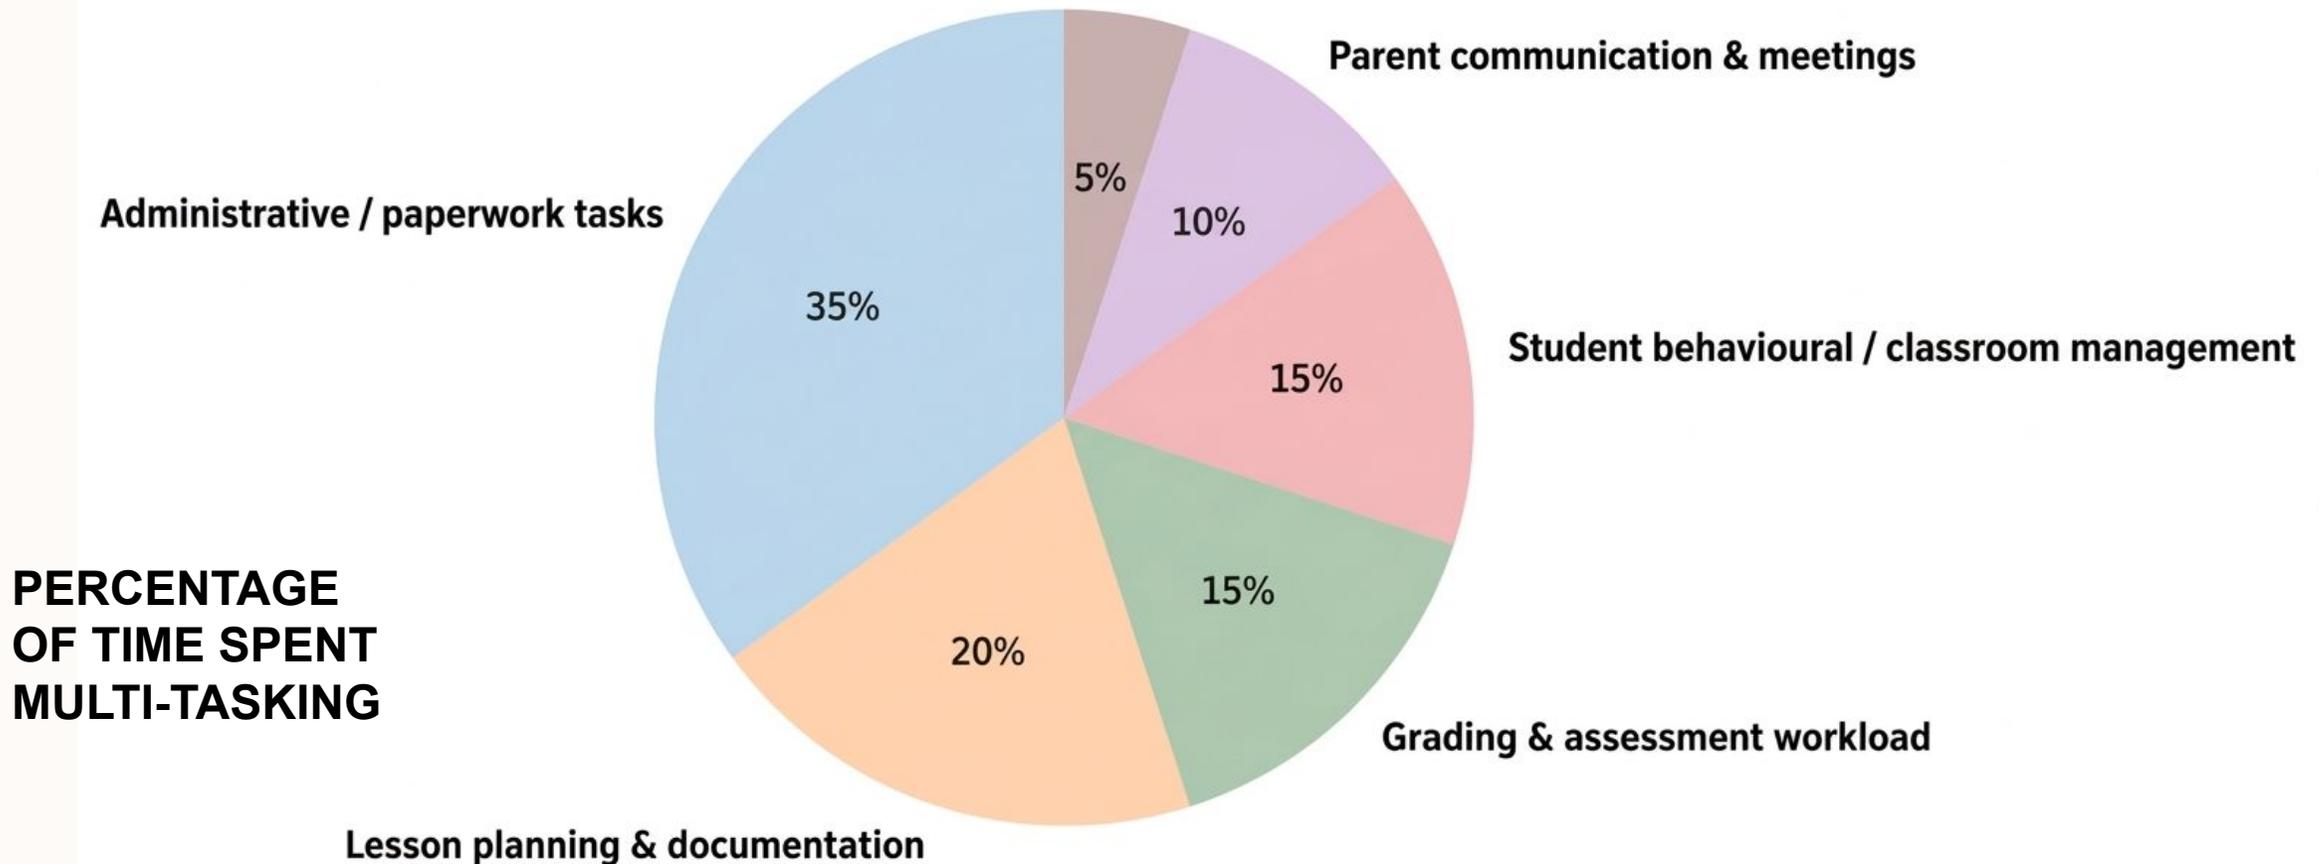

- Administrative roles / Non Teaching Tasks

- Keeping a track of the learning analytics and progress.

Tackling Teacher Burnout

Approximately (40-60)% of the educators complain of burn out and exertion. AI reclaims these hours reducing workload and burn out allowing teachers to focus on mentoring students

Teacher Burnout Causes in Modern Classrooms (OECD TALIS-based estimates)

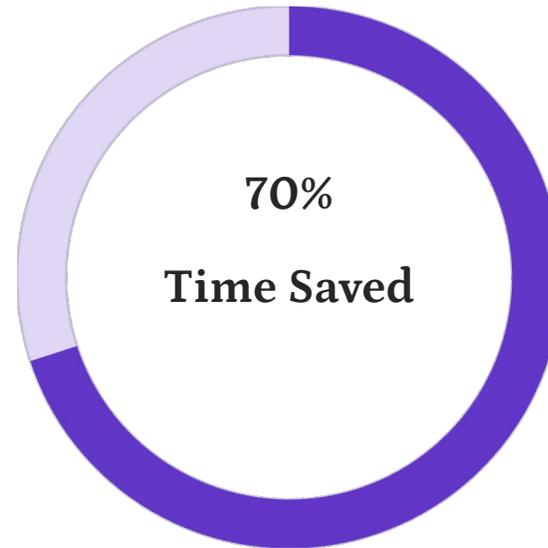

How can Artificial Intelligence solve these problems ?

➔ SAVES TIME BY AUTOMATING REPETITIVE TASKS

➔ PERSONALIZES LEARNING

➔ REDUCES BURNOUT

National Education Policy 2020, emphasizes on the strategic use of emerging technologies, digital infrastructure and ICT tools to transform school education. Artificial Intelligence can effectively bring about this transformation.

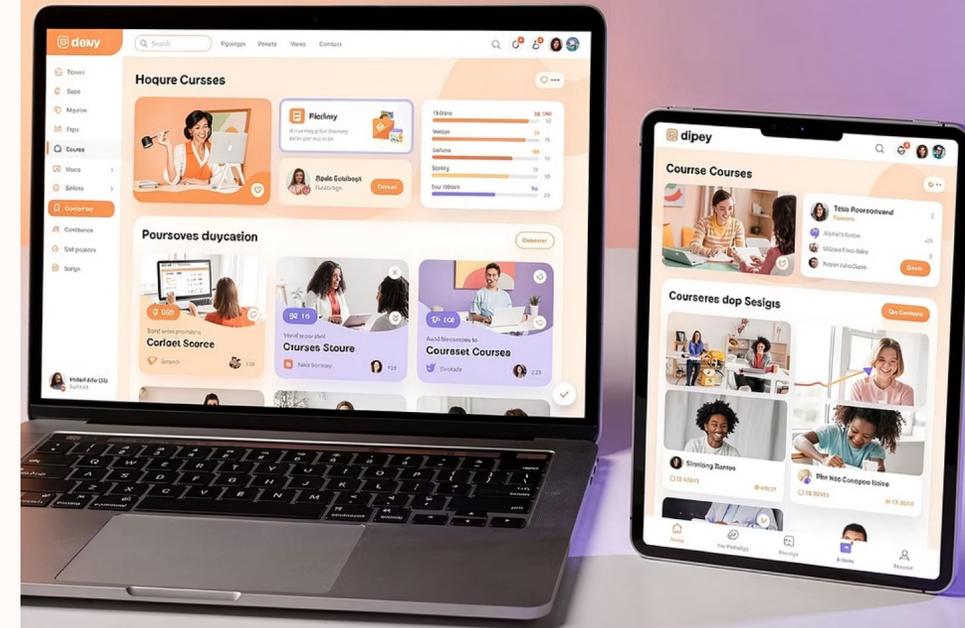

What is SchoolAI.com ?

SchoolAI is an all-in-one, artificial intelligence based learning platform specifically designed for K-12 education. A teacher-guided, student-safe AI learning platform that helps educators understand how students learn and personalize instruction in real time.

<https://app.schoolai.com/>

<https://schoolai.com/>

Used by 1 million educators globally

How Does SchoolAI Support Teachers in the Classroom ?

 Personalized and Adaptive Learning
Provides guidance, adapting instructions to the pace and style of students.

 Unlimited and Automated Generation of instructional material, lesson plans, worksheets
Automated grading of assessments and quizzes saves time and energy.

 Creates interactive AI experiences (Spaces) for students under the supervision of teachers

 Data-Driven Insights and Learning analytics
monitors progress, attendance trends, and learning gaps at a glance.

 Automated non teaching and administrative tasks can be done seamlessly.

KEY FEATURES OF SCHOOL AI

Student-centered, AI-powered, and teacher-controlled learning environments.

The AI assistants, guide teachers and students through these Workspaces adapting to their learning pace

Generative AI tools create lesson plans, quizzes, rubrics, IEP goals, and worksheets in seconds.

Monitoring the progress of each student in real time

'SPACES' – HOW THEY ARE USED

TEACHERS

- Create a new Space or Choose an existing Learning Space
- Customize the Activity
- Share the Space with Students
- Monitor Student Learning

STUDENTS

- Join the Space
- Receive Instant Feedback
- Learn at Their Own Pace

How to access School Ai

The image shows a Google search interface with the search term 'schoolai' entered in the search bar. The search results are displayed in a dark theme. The top result is for 'SchoolAI', with a blue arrow pointing to the title 'SchoolAI: Reach Every Student, Every Day'. Below the title is a brief description: 'SchoolAI gives every student personal AI tutoring while showing teachers exactly what each student needs. Make school awesome with AI built to improve ...'. To the right of the main result is a 'See results about' box containing a search icon and the text 'SchoolAI' with a right-pointing arrow. Below the main result are five related links, each with a title and a brief description, and a right-pointing arrow or refresh icon.

Build me a lesson about the layers of the Earth.

Of course. I'm guessing this is for your 5th grade class. How long should this lesson take?

30 minutes

Okay! Here's an idea. I'm thinking we create an image of a 3D Earth model your class can explore. Would you like me to include some guiding

Applying SchoolAI in the Classroom

❏ **Result:** Teachers reclaim valuable hours, students receive targeted support, and school leaders gain actionable data to drive improvement.

Is SchoolAI.com a free

tool?

School AI is a **freemium** tool, meaning it offers a robust free version for individual teachers, along with paid "Pro" and "Scale" tiers designed for schools and districts.

Free

Perfect for teachers ready to explore how AI can help them reach every student.

Pro

For schools ready to make AI part of how teachers teach and students learn every day.

Scale

Perfect for districts leading the way with AI that's secure, scalable, and delivers results you can see.

Free for Teachers

POINTERS FOR SAFE PRACTICES FOR USING AI

- • **Protect student privacy & data.**
- • **Always verify the generated content for accuracy and verify timelines. Check out for outdated and fabricated content.**
- • **Ensure inclusion, equity & mitigate bias.**
- • **Follow the 80-20% rule for using AI.**
- • **Keep the teacher in control .**

Secure by design

Because we built SchoolAI specifically for students, we maintain the highest security and data privacy standards.

🔒 Privacy First

Our direct agreements with AI model providers ensure that student or educator data is never saved or used to train future models.

☁ Certified Secure

🔄 Always Protected

🛡 Leading in AI Safety
