

TeachBetter.ai

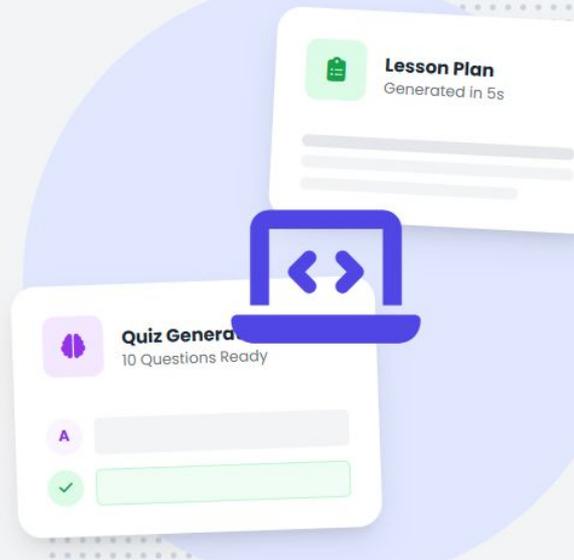

Revolutionizing Your Classroom with TeachBetter.ai

An All-in-One AI Platform for Lesson Planning, Content Creation, and Student Engagement.

 AI Powered

 Save Time

 Engage Students

Introduction to TeachBetter.ai

Our Mission

Moving education away from rote memorization towards **personalization** and **real-world application**. We empower teachers to focus on student growth rather than administrative tasks.

♥ Student-Centric

What It Is

An all-in-one AI platform specifically designed for educators. It seamlessly combines the computational power of **ChatGPT**, the vast information of **Google**, and the visual learning of **YouTube**.

Key Benefit

No "prompt engineering" required. The interface is intuitive—you think and type like a teacher, not a tech expert. We handle the complex AI instructions in the background.

👉 Easy to Use

Getting Started & The AI Tools Library

1

Registration

Easy sign-up at www.teachbetter.ai using your existing Google account. No complex forms required.

2

The Interface

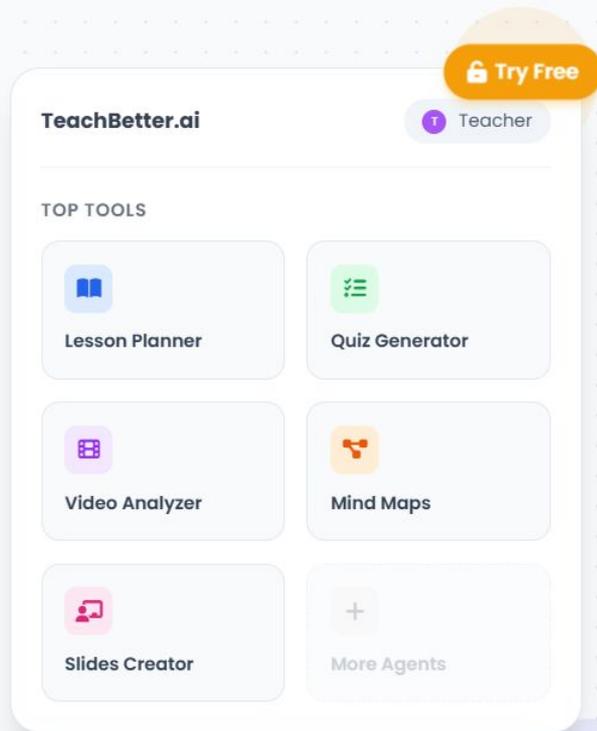

Access to **19–20 specialized AI agents** designed specifically for teaching use cases like grading, planning, and content creation.

✓

Free Trial

NEW

New users receive a comprehensive **free trial** to explore all premium features before committing.

Lesson Planner

Customization

Supports various pedagogical formats like the **5E Model** (Engage, Explore, Explain, Elaborate, Evaluate).

Smart Inputs

Simply specify **subject**, **grade**, **curriculum** (e.g., CBSE), and lesson **duration**.

Contextualization

Upload **textbook PDFs** to ensure the lesson plan perfectly aligns with your specific classroom resources.

Comprehensive Outputs

Instantly generates **learning objectives**, engagement **hooks**, differentiation strategies, and homework.

TeachBetter AI Agent

Subject: Grade:

Output Generated

Quiz & Worksheet Generator

Question Variety

Instantly create MCQs, fill-in-the-blanks, and story problems to test different levels of understanding.

Localized Context

Use "Additional Context" to align questions with Indian themes or practical real-world applications.

Instant Answer Keys

Automatically generates detailed solutions and marking schemes for effortless grading.

Flexible Export

Download your assessments as formatted **PDF** or editable **Word** documents for print or digital sharing.

TeachBetter Worksheet Creator

Topic: Profit and Loss | Grade Level: Class 8

Question Types: MCQs, Word Problems

Additional Context (Optional): Please use examples from Indian Rupees (₹) to make it relatable

Preview: Question 1
Q1. Raju bought 50kg of onions at ₹20/kg and sold them at ₹25/kg. What is his profit percentage?
A) 20%
B) 25%

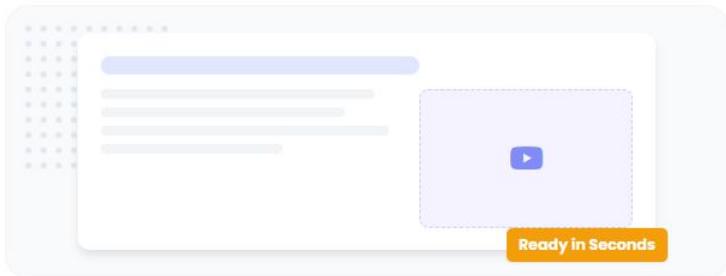

Answer Key Generated

Generate

Presentation & Notes Generator

Presentation Generator

Instant Slides

Creates professional slides with structured text and relevant layouts instantly.

Rich Media

Automatically inserts relevant images and embeds **YouTube videos** for engagement.

Notes Generator

Concept Summary Tables

Great for student "ready reckoners" to quickly grasp key comparisons.

Revision Notes

Replaces the need for students to copy everything from the blackboard.

Q&A with Explanations

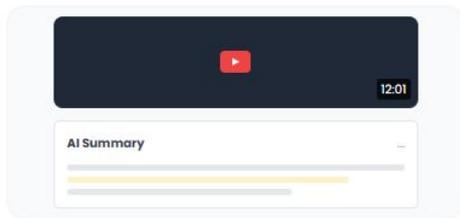

Deepens student understanding through generated practice

Multimedia & Video Analysis

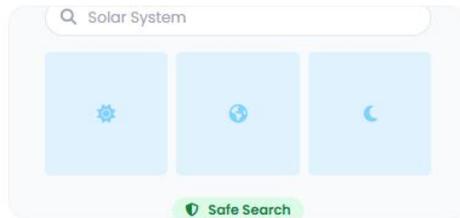

YouTube Video Analyzer

Paste a link to get a full **transcript**, **summary**, or key highlights without needing to watch the whole video.

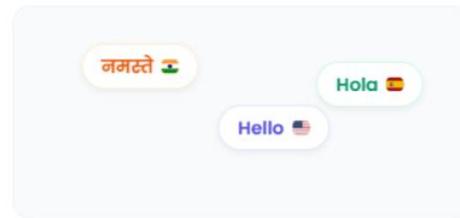

Web Search Assistant

Search for **ad-free** educational images and videos directly within the platform, ensuring safe content.

Language Support

Most tools support **80+ languages**, including Hindi, making content accessible to diverse classrooms.

Simulations Library

Virtual Labs

Access over **100+ interactive simulations** across Physics, Chemistry, Biology, and Math. Turn abstract theories into tangible experiments.

Physics

Chem

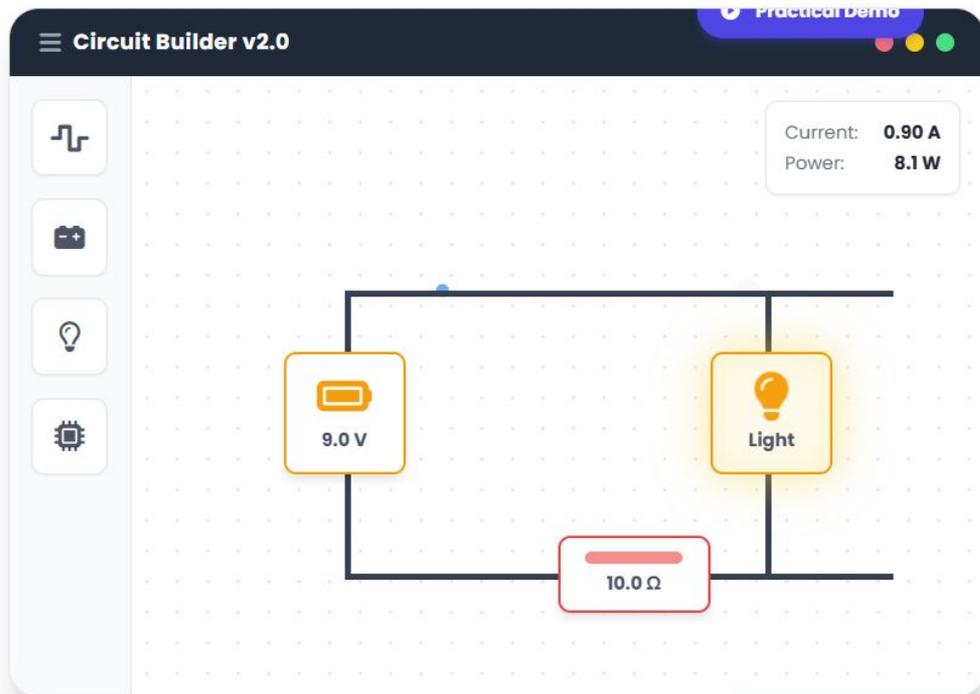

Bio

Math

Goal

Enhance student engagement and help them **visualize complex concepts** that are difficult to demonstrate in a traditional classroom.

Personal Content Hub

Auto-Save Functionality

Never worry about losing your progress. Everything you generate—whether it's detailed **lesson plans**, educational **images**, or analyzed **videos**—is automatically stored securely in the cloud the moment it's created.

 Secure Cloud Storage

Personalized Library

Build your own digital repository of teaching assets. Intuitively **organize** your generated resources into folders and categories, creating a personal library that you can easily refer back to and **reuse** for future classes.

 Lifetime Access

PREMIUM ACCESS

₹149

per month

BEST VALUE

- ✓ Unlimited AI Lesson Plans
- ✓ Advanced Quiz Generation
- ✓ Full Simulation Library Access
- ✓ Multimedia Analysis Tools
- ✓ Priority Email Support

Start with a **Free Trial** today.
No credit card required for sign-up.

🚩 Conclusion

Ready to Transform Your Classroom?

TeachBetter.ai isn't just a tool; it's your personal teaching assistant. We handle the repetitive tasks so you can focus on what matters most—inspiring your students.

🚀 Start Your AI Journey

"Use technology to make life easier, not more complicated. Join thousands of educators revolutionizing their teaching methods today."

PEDAGOGICAL INNOVATION SERIES

TeachBetter.ai: AI as a Force Multiplier in Modern Pedagogy

"Moving from automation to cognitive apprenticeship"

The Case for AI in Modern Pedagogy

Why AI Integration is Imperative for Today's Educator

The Content Explosion

Teachers face an overwhelming volume of digital resources, making selection difficult.

AI SOLUTION

Professional Curator

- ✓ Filters millions of resources instantly
- ✓ Structures content by pedagogical value
- ✓ Aligns with specific learning standards

The Administrative Burden

Lesson planning and grading consume valuable time meant for instruction.

KEY STATISTIC

>50% time spent on "Shadow Work"

- ✓ Automates routine planning tasks
- ✓ Reclaims hours for student interaction
- ✓ Streamlines assessment creation

Contextual Relevance

Generic tools often fail to address specific local curricula needs and cultural context.

TEACHBETTER ADVANTAGE

Localized & Culturally Aligned

- ✓ Indian themes & local curricula fit
- ✓ Technology acts as a partner, not outsider
- ✓ Supports 80+ languages natively

Enhancing the Teaching-Learning Process

From Information Delivery to Active Engagement

Inquiry-Based Learning

5E LESSON PLANNER

Design classrooms that start with a "Hook" rather than a definition. Foster curiosity from minute one by structuring lessons around the 5E model (Engage, Explore, Explain, Elaborate, Evaluate).

The Flipped Classroom 2.0

VIDEO ANALYZER

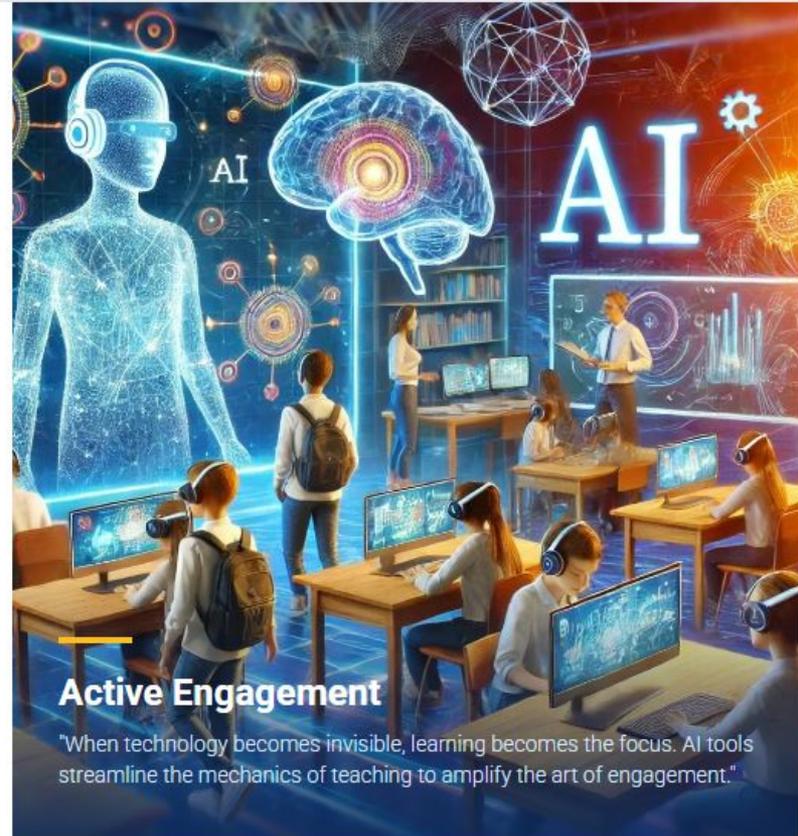

Transform passive video watching into active learning. Generate instant summaries, transcripts, and key milestones to identify learning gaps before the bell rings.

Multimodal Learning

MEDIA INTEGRATION

Instantly bridge the gap between abstract text and visual understanding. Embed ad-free, distraction-free images and videos directly into the workflow to support diverse learning styles.

Precision Differentiation & Personalization

Serving Every Learner with AI

Variable Complexity

Break down complex theories into tiered explanations for diverse learner needs.

AI TOOL

Concept Explainer

- ✓ Multiple tiers of simplicity
- ✓ Caters to gifted & remedial support
- ✓ Real-life, local applications

Notes & Ready Reckoners

Create cognitive scaffolding for students with different processing speeds.

AI TOOL

Notes Generator

- ✓ Instant summary tables
- ✓ "One-Pagers" for quick review
- ✓ Exportable to PDF/Word formats

Interactive Mastery

Gamify the practice process to allow self-paced concept mastery.

AI TOOL

Concept Mastery Coach

- ✓ Interactive feedback loops
- ✓ Self-paced progression
- ✓ Badges for motivation

Strategic Advantages of TeachBetter.ai

The Professional Edge for the Digital-Age School

No "Prompt Engineering"

Unlike generic AI like ChatGPT, our tools are built with a "Teacher Voice." No coding skills required.

ACCESSIBILITY

Zero Coding Required

- ✓ Built with specialized "Teacher Voice"
- ✓ Bypasses complex prompt crafting
- ✓ Intuitive for non-technical users

Authentic Assessment

Create high-order thinking (HOTS) questions that connect math and science to real-world story problems.

PEDAGOGY

HOTS & Real-World Context

- ✓ Generates deep-thinking questions
- ✓ Connects concepts to daily life
- ✓ Makes abstract learning "sticky"

Virtual Experimentation

Access simulations to conduct "Virtual Labs" where physical resources might be limited or unsafe.

RESOURCES

100+ Interactive Simulations

- ✓ Safe, repeatable scientific exploration
- ✓ Overcomes physical lab limits
- ✓ Enhances inquiry-based learning

Implementation & Vision

Beyond Rote Memorization: The Path Forward

Personalized Content Hub

MY CONTENT LIBRARY

Your "My Content" library becomes your professional legacy—a digital repository of every high-quality resource, lesson plan, and assessment you've ever built, ready for future use.

Scalable Inclusion

80+ LANGUAGES

Support for 80+ languages ensures that no student is left behind due to a language barrier, facilitating true Mother Tongue instruction in science and math contexts.

The Mission

LIFE-READY SKILLS

Our goal is a shift from "teaching for the exam" to "teaching for life." AI is the essential tool that makes this deep personalization and real-world application possible at scale.

Teaching for Life

"AI doesn't replace the teacher; it empowers the teacher to reach every student, everywhere, in their own language."
