AI In Education Series

Session Title: Adobe Express Create with AI

Date: 26th March 2026

By: Sonia Wadhwa

Additional Director IT, Salwan Education Trust

Principal, Salwan Junior School, New Delhi, India

At the end of this session, we will be able to:

1. Understand the interface, accounts and use cases of Adobe Express.
2. Use Generate with AI feature of Adobe Express to quickly create classroom-ready teaching aids such as posters, worksheets, and visual explanations.
3. Design engaging learning materials within minutes, reducing preparation time while improving the quality of instruction.
4. Use both desktop and Adobe Express versions to develop content anytime.
5. Integrate AI-generated content into daily lesson plans, assessments, and student projects for enhanced engagement.
6. Nurturing fundamental of Digital Creativity with AI

Creativity & AI are 21st century essentials

2. Networks and cybersecurity
3. Technological literacy
4. Creative thinking
5. Resilience, flexibility and agility
6. Curiosity and lifelong learning

About

Adobe Express for Education is a **digital media creation platform** designed specifically for **K–12 classrooms**.

It empowers both educators and students to create engaging visual content — such as graphics, videos, presentations, web pages, and more — using intuitive, classroom-safe tools.

Benefits of Adobe Express for Education

- **Gain Free Access to C**omplimentary Premium licenses for teachers and students of all grades.
- **Participate in O**rientation session on Adobe Express for Education software to all teachers with a Certificate.
- **Join the Continuous Professional Development series** to develop competencies to become a Digital Educator.
- **Avail Education-specific P**rivacy controls. Schools own the accounts and exercise admin rights over them.

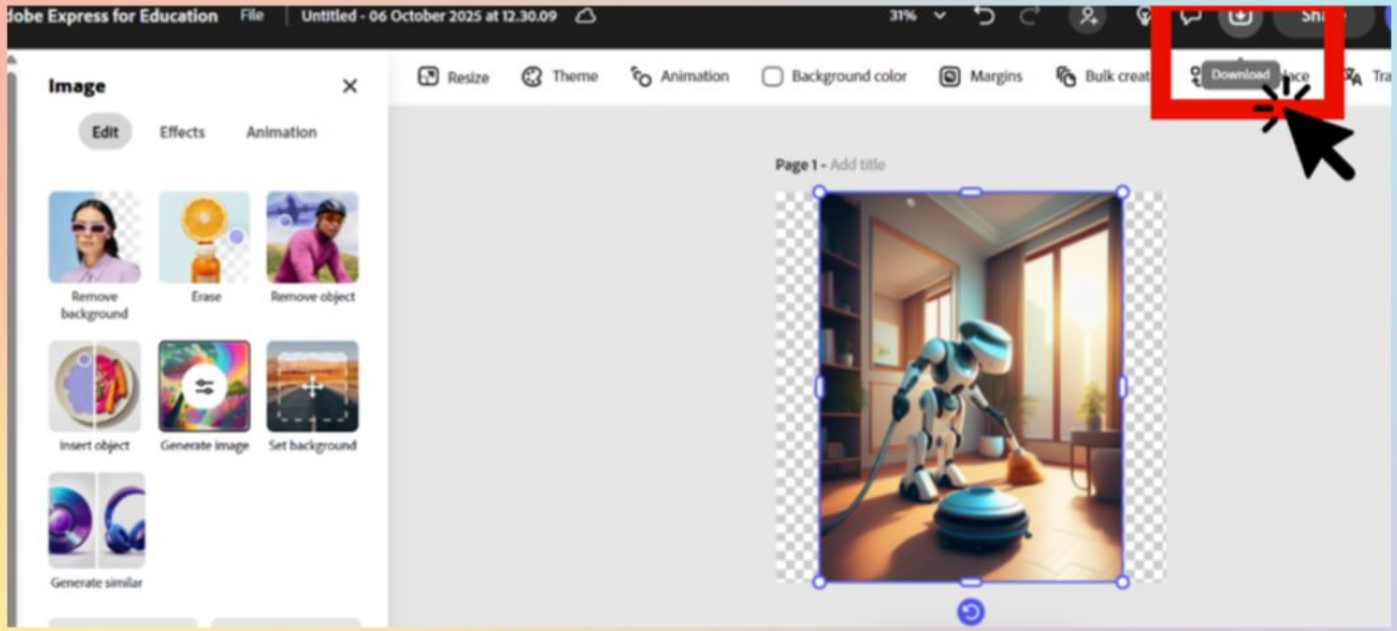
Use Case : ICT Activity Grade 4-5

A Grade 4–8 ICT student used **Adobe Express** to design creative digital assets such as **logos, posters, and presentations**, integrating core ICT concepts like *Operating Systems, Hardware, Digital Etiquette, Cyber Safety and Artificial Intelligence.*



Use **Generative AI** in **Adobe Express for Education** to make an image of a robot solving an everyday problem.

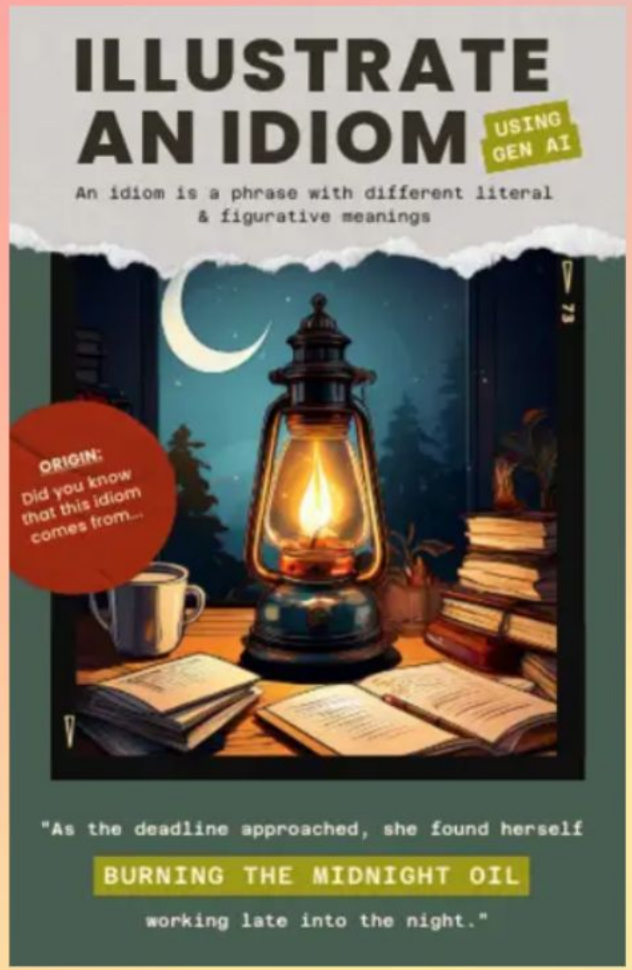
Use Case: Exploring Art Styles through History with Adobe Express: From Renaissance Cynicism to Bold Pop Art

- **Brings History to Life**: Students recreate artworks in historical styles (e.g., Renaissance, Pop Art), making learning immersive.
- **Promotes Interdisciplinary Learning**: Builds visual literacy, historical context, and 21st-century skills like critical thinking & cultural awareness.
- **Fuses Traditional & Digital Art**: Blends hands-on artistic thinking with digital design tools and AI prompts.
- **Boosts Engagement**: Combines creativity with emotional and cognitive learning—students connect with time periods meaningfully.

Interdisciplinary Thinking | **Contextual Visual Learning** | **Cultural Connections**

Adobe Express made it possible to **introduce students to centuries of art movements**—not as static knowledge, but as something they could interact with, experiment upon, and recreate in their own style. They weren't just learning *about* art—**they were doing art**.

Use Case: GenAI for English Lesson and Grammer



Indian Curricular Templates

Aligned templates constantly updated with class presentations, worksheets and creative assignments covering multiple grades curricula.

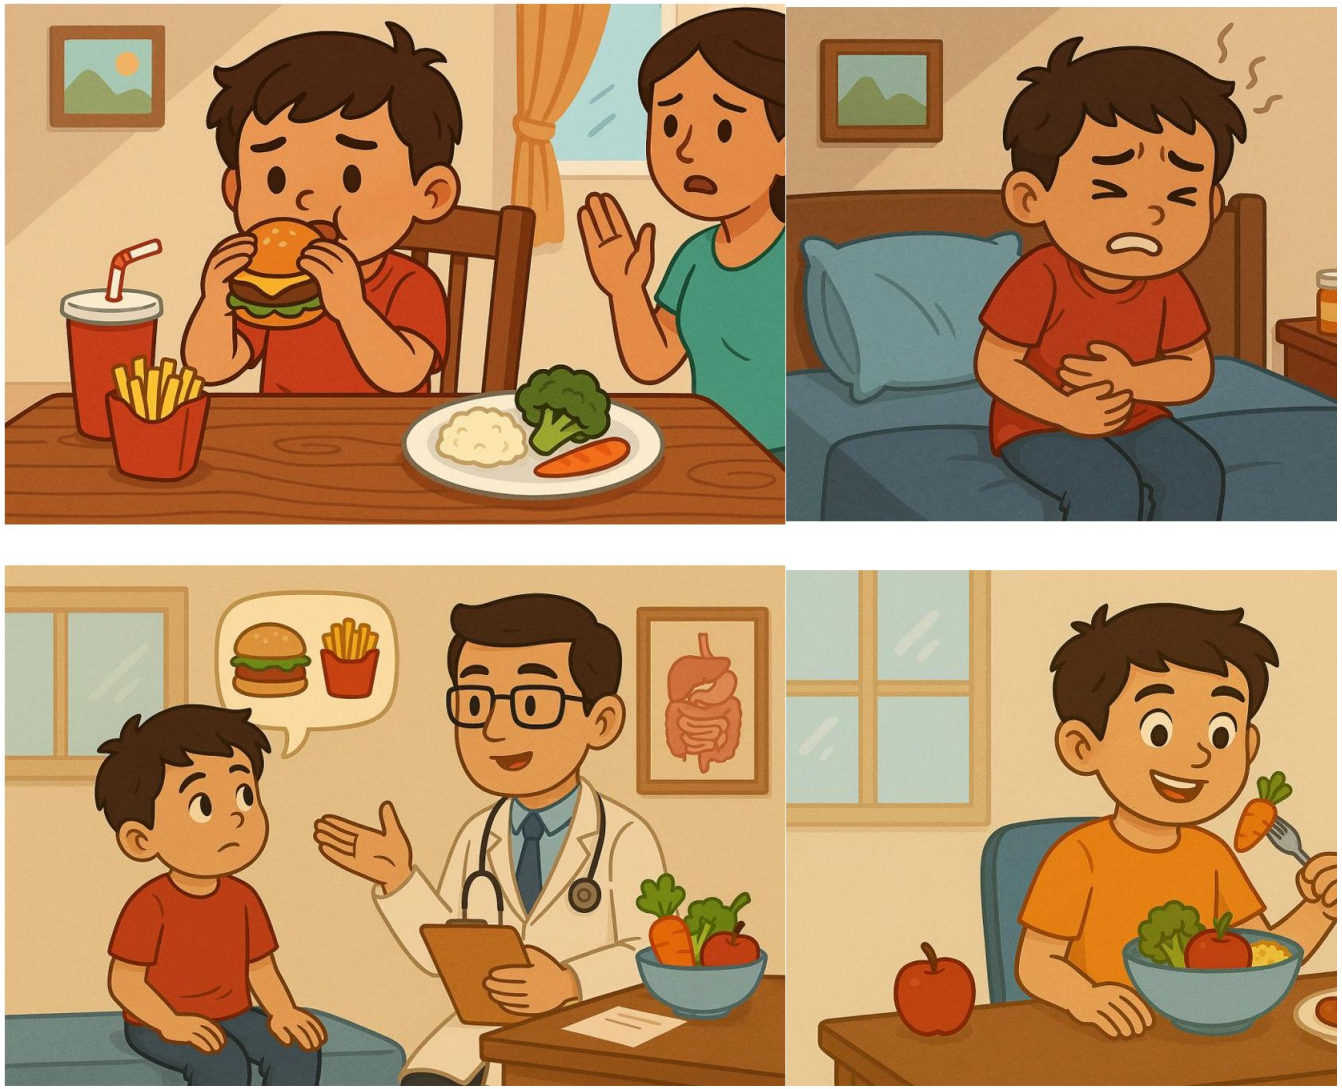
Visual Storytelling

Give me 4 set of images to explain the following story through visuals to my class I students:
Scene-1: Ram was very fond of Junk food. He always use to eat Junk foods and will not eat food if mother will give any healthy food.
Scene-2: One day he had severe stomach ache and he felt sick.
Scene-3: Doctor explained him the importance of eating healthy food and avoid junk food
Scene-4: He started eating healthy food and became fit.



Critical thinking- comprehending, analyzing and sequencing the story scenes

Create a picture Story Board

The scene requirement are:

- Scene-1: Trisha went to see the fair with her mother.
- Scene-2: Mother was insisting her not to run and stay with her as it was a crowdy place.
- Scene-3 But she somehow left the hand of her mother and lost the way.
- Scene-4 She was crying badly.
- Scene-5 Then a stranger took her to the help desk where they made announcement.
- Scene-6 Finally she could meet her mother back.
- Scene-7: She was again happy now
- Scene-8: Mother told her to always stay with parents and listen to them.

STORY/WORD PROBLEMS BECAME EASIERTO SOLVE WHEN DEPICTED AS A PICTURE PROBLEM

Case Study with class IV: When word problems were converted into picture problem, about 76% students could attempt it correctly instead of an average of 38 to 41% students. Gen AI allowed us to generate context specific images with simpler prompts.
