

Join spear heading opportunities for Continuous Professional Development (CPD)

Offered by NCERT

National Education Policy (NEP) 2020 emphasises on generating the need for self improvement and staying abreast with the latest innovations and advances in their profession. Each teacher will be expected to participate in at least 50 hours of CPD opportunities every year for their own professional development, driven by their own interests. Through CPD initiatives, teachers can enhance their skills, stay updated on curriculum changes, and engage in collaborative learning communities. NEP–2020 envisions a transformative education system that not only focuses on student development but also prioritises the professional growth of educators, ensuring a well-equipped and motivated teaching force capable of meeting the challenges of the 21st century.
